

Police

excellent

No email reply from chief

Would like to see police cracking down on noisy motorcycles. Loud exhaust pipes are illegal.

New station needed

Excellent

Kelly had to embarrass him into firing someone who made sexual comment to parent. L. said parents made story up.

Put new station on hold a few years--after middle school

Improve/add on to present facility rather than build new one - oversized for town

Too many police officers for this town. Need to cut the force and budget.

Out of control

Safety

Always helpful people

Not impressed with the chief playing politics.

Have had bad experience when caring for my Mother 3 years ago

Have gotten \$ in past

excessive manning

These people do a great job!

BOS has protected police at expense of other town services throughout the last 5 years.

Sell land set aside for schools budget

Chief Kelly of the Police Department is power hungry and feels he is untouchable.

Adequately funded

"State of the art" station not affordable

Very high visibility

2

We are afraid of the department

excellent service

New building

Very helpful

Highest importance

Need an animal control officer

Have been courteous and helpful.

I think the police are doing a great job for the town

Sooner or later must grow

Keep up good work

Protector of life & property

Safety

metrics show them well funded

Professional & courteous

Outstanding!

Over staffed

Excellent+Professional in emergency

Too much speeding on King Street!

Lived in town 58 years got very 1st speeding ticket this Holiday. NO warning, \$100 ticket , 10 MPH over limit, schools closed, going to work. Police seem to be making their own budget & income. Other town residents getting tickets also. This needs to be addressed now or later. We live here, pay the taxes, and all make mistakes, heavy handed policing not needed!

Why so many??

Keep School Officer

Seems fine-I don't think we need to build up further.

Important

We do not need to create a position to oversee the fire department safety officer.

not very friendly

difficult to work with
