

## Road Maintenance

Some roads are in terrible condition

Too many potholes not being fixed

Bruce Street

Weather is ruining the streets

Town being taken by independent snow plows - Keep plowing when roads are bare.

Roads and bridges are a wreck. Harwood Ave through town forest or example.

some need repaving They do their best with what they have!

Goldsmith Street is lousy

Goldsmith St. is a disgrace

Road need to be better paved, Potholes

Plowing good, Goldsmith is too bumpy

Good effort on plowing and repairs

Street not plowed or maintained by city none in my neighborhood.

Many roads need repaving.

Stop use of salt, just use sand

Very important esp Rt 2A @ 239 Ayer Rd

How deep do the pot holes have to get?

7

These people do a great job!

Some roads are awful.

Goldsmith Street is so bad that it's dangerous for cyclists to try to share the road with cars  
good

Not satisfied but understand the local and state fiscal issues

Very good dept, but limited by lack of funds.

like to see improvement

Not able to keep up

My street (Bruce Street) has not been paved for 18 years. Time for a change.

"Patching" doesn't do it

Things going from bad to worse

Should Fix Goldsmith Street

Goldsmith is bad

repair

Side roads not plowed well

There are some really poor roads including Goldsmith Street.

Lake Drive seems like the only road not resurfaced in the area.

Great work

roads need attention

Jim Clyde does good work

Huge pothole at Mobil station 110/119

Roads need paving and repair

Our street hasn't been accepted yet. From 200K, 300K, 400K, 500K, 600K, 700K, etc.

Roads need improvement

Harwood is a disgrace.

Repave Goldsmith Street

Need a more aggressive schedule

Repave Goldsmith St

We live on Samoset Trail after we all voted to put public water in our area, we were promised new roads. Only 2 roads have been done in about 4 years.... Pot holes are a constant problem in our area.

Intersection of 119 & 110 needs road repair.

Several roads need resurfacing

Fix 119 and 110 intersection!

excessive manning

Much of Goldsmith Street could use repaving.

It would be nice to see improvements in Bruce St. Now that Ellen Peterson has moved away

Thanks for the inquiry

Like to see improvement

Main roads Okay - side roads not so.

Roads need work, some terrible

2A (where it crosses 495)- The road surface is in very poor condition.

Intersection at Littleton Center (Mobile/CVS) needs to be paved-BAD

Good overall--However, pothole repair could improve.

There isn't any

Fix those potholes

All the Time!!!

King St. @ 2A/119 needs to be repaved desperately for 8 years.

Plowing is good, however in our travels, we find Littleton has terrible roads in comparison w/similar sized towns. Harwood Ave (thru town forest area) is almost impassible! Also Harvard Rd to Harvard line, Bruce St & others. Getting so they're mainly potholes, patches & ruining cars. Goldsmith St is another.

See above

Needs a lot of improvement

How does this differ from Highway budget?

Rt. 119 & King St intersection resurficed.

bumpy narrow roads = slower drivers

wasted too much \$ on roads

Goldsmith Street Under chapter 90 (State) ?? Long over due and cut speed to 25mph safety  
thank you

There are many potholes (esp. on Harwood)

Too much spent on sanding my small road 3-4X in a snow storm.

Spend less on road in storms
