IECC §120AA Stretch Code Compliance Sheet

Chapter 5, Commercial Energy Efficiency

Completely fill out all information that applies, omissions may cause denial or delay of application

Building Permit # _____

Stretch Code Energy Regulations

Currently, the Massachusetts State Building Code uses the 2015 International Energy Conservation Code with some amendments.

NEW COMMERCIAL—RESIDENTIAL 4 or more stories (check one)

- ☐ Buildings Under 5000 ft² - exempt from the stretch code but must comply with Iecc 2015, Chapter 5
- ☐ Buildings 5000 ft² - 100,000 ft² (including residential 4 or more stories)
- ☐ Performance Option (120AA 501.1.1 780 CMR)
- Energy modeling must show a 20% improvement relative to ASHRAE 90.1-2007 Appendix G
- ☐ Prescriptive Option (120AA 501.1.4 780 CMR)
- Compliant with Chapter 5 IECC 2009 plus Stretch Code requirements plus one of the following;
 - * More efficient heating and cooling equipment
 - * More efficient lighting
 - * Provide at least 3% of the onsite electric load from onsite renewable generation
- ☐ Buildings Over 100,000 ft² (including residential 4 or more stories)
- ☐ Performance Option (120AA 501.1.4 780 CMR)
- Energy modeling must show a 20% improvement relative to ASHREA 90.1-2007 Appendix G
- ☐ Special Case Building greater than 40,000 ft²
- ☐ Supermarket ☐ Warehouse ☐ Laboratory
- Energy modeling must show a 20% improvement relative to ASHREA 90.1-2007 Appendix G
- ☐ Work is exempt from Stretch Code Requirements (but must comply with IECC 2009)
- ☐ Commercial building less than 5000 ft² ☐ Special Case Building less than 40,000 ft²

☐ Proposed work is a renovation or alteration of an existing building and is exempt from Stretch Code requirements. Project will comply with all current IECC 2015 requirements.

☐ Roof Replacement—roof insulation shall meet insulation values as specified in current IECC, 780 CMR 120-AA 101.4.3 Applicability - Exception 4 requires that in-insulated roofs or walls be insulated to current code requirements when sheathing is exposed as part of the re-roofing or re-siding of the building.

☐ I declare that the work is EXEMPT under 780 CMR 120AA §101.4.3 Exception # _____

The following documentation has been submitted with application:

- ☐ Energy modeling report
- ☐ Building envelope specifications
- ☐ Lighting Power Density Report (required for any new lighting installation)
- ☐ Equipment, Testing and Commissioning schedule
- ☐ § 107.6 Construction Control Affidavit when applicable
