**Subject:** In support of Spring Dell Farm

**\*\*THIS EMAIL WAS SENT BY AN EXTERNAL SENDER\*\***

I write in support of Spring Dell Farm and their desire to do some nonfood composting in order to preserve and make the farm sustainable. I have not yet visited there -- but deeply value the presence of these family run farms as essential to the Massachusetts way of life as anything else that drew us here a year and a half ago. Let's not lose another one. They are essential connections to the earth, to healthy food, and to true community.
