Littleton Planning Board

OCT 03 2022

Received

Dear Planning Board,

I am unable to attend the meeting on Oct. 6 but wanted to voice my support for the committee to approve Springdell Farm's "Accessory Use at Active Farm" special permit.

In the seventeen years that we have lived in Littleton, I have witnessed Jamie and her crew work relentlessly to keep their farm running. Jamie has innovated in her farming practices, started a robust CSA, and provided spaces for local vendors to connect with potential clients. Springdell practices sustainable agriculture and demonstrates clear commitment to the land.

In a time when small farms are rapidly disappearing from our landscape, I believe that the town should approve their request for accessory use. I believe that the benefits of having Jamie succeed outweigh the concerns of neighbors. (I've composted my entire life and when done properly, this practice not only reduces what gets dumped into landfills, it nurtures the soil. I wish that Littleton provided composting bins to all residents!)

Please do whatever you can to help this local farmer succeed. We all benefit when Springdell succeeds.

Thank you.
