Subject: Re: Support for Springdell Farm

**\*\*THIS EMAIL WAS SENT BY AN EXTERNAL SENDER\*\***

Can you please forward this to the planning board?

Thanks.

Michele

Having this large composting area would make Littleton more sustainable which would continue to make Littleton more attractive to homeowners and businesses. Not approving the composting at Springdell farm means half the farm would be sold to developers. This not only would harm Springdell farm but would harm the "Littleton 119 area of farms". Instead of beautiful farm land there would be tons of houses.

NONE of those farms can compare to Springdell farm. The produce and family atmosphere at Springdell cannot compare to any other local farm.
