**Re: Notice of Intent (DEP File #204-0898) – Installed Plantings
9 Ayer Road
Littleton, MA 01460**

Dear members of the Commission,

On behalf of the Applicant, Brian Carlson, we have prepared this cover letter to provide an update to the Commission regarding the proposed plantings at the 9 Ayer Road shared driveway project permitted with the Commission in September 2022. The Applicant has installed the proposed plantings as indicated on the approved Site Plan for the development. All plantings were supplied by Bigelow Nurseries, Inc., located in Northborough, MA.

Per Special Condition C-19 of the Order of Conditions, monitoring reports for the installed plantings will be submitted to the Littleton Conservation Commission for two growing seasons and an as-built planting exhibit has been attached for the Commissions use. All trees were shipped to the site on October 10th and planted in October 2023.

Additionally, the Applicant respectfully requests an extension to the Order of Conditions which is set to expire on January 29, 2024. The drainage basins have been installed, all utility work within the Ayer Road right-of-way has been completed, and the landscaping within the 100-foot wetland buffer has been installed. The Applicant is scheduled to pave the top course of the shared driveway in the Spring of 2024. As all work is anticipated to be completed in 2024, we respectfully request a one-year extension to the Order of Conditions.

We trust this meets your needs at this time. If you have any questions or require any additional information, please do not hesitate to contact me.

Regards,

DILLIS & ROY
