

**A**

36" Ash/Maple tree  
 (removed in anticipation of septic and home renovation)

**B**

42" Quad Maple

Removed due to large split down center of tree, portion leaning towards house

## CD

24" Maple and 16" Pine

Maple was dead = no leaves during summer reason; pine tree to was half-dead in upper portion (not sure if there was a split or if just a portion was bare)

**E**

24" Maple

Removed due to split in upper trunk, leaning towards yard

F

18" Ash

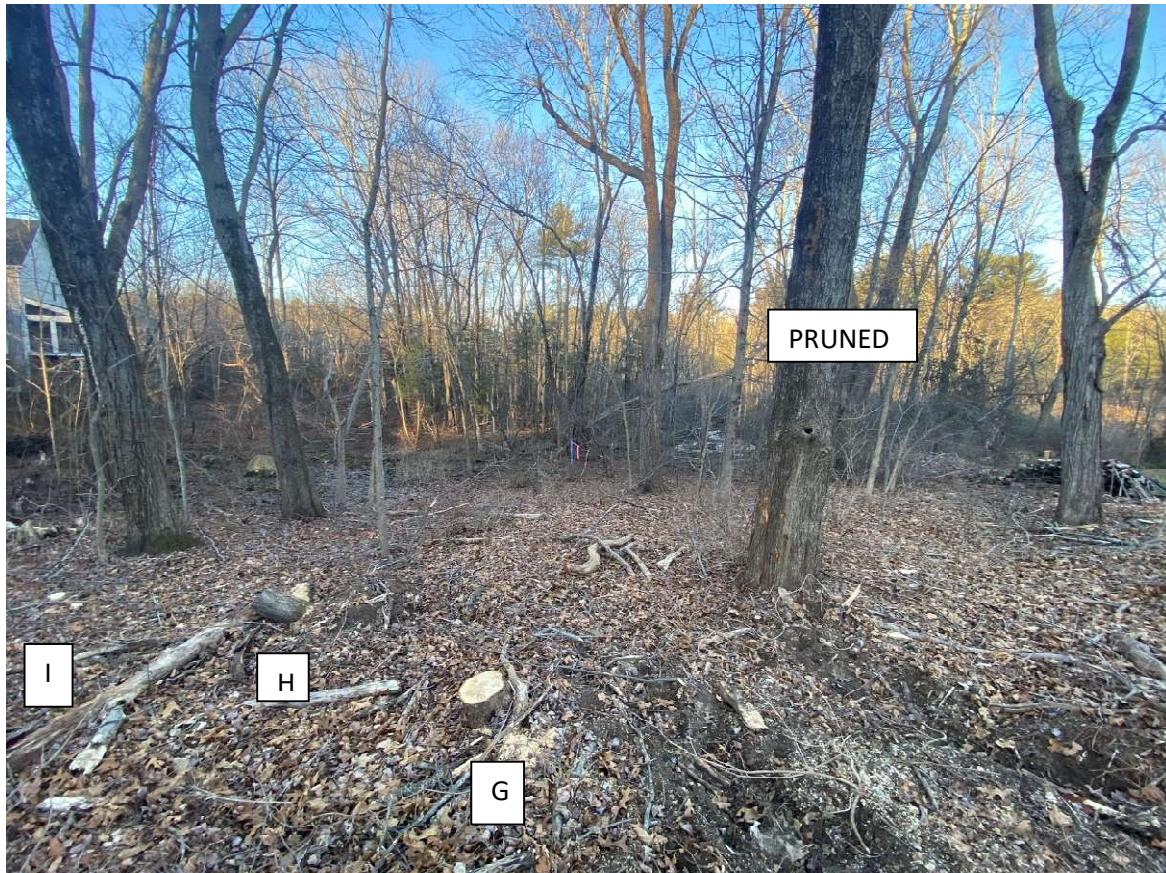

Was dead and already partially cut down, remaining trunk standing was about 10' tall (?) and had offshoots that were dead and broken – trunk pieces are still on ground

## GHI + pruned tree

Maples: G = 11", H = 10", and I = 5"

E tree fell into these trees when it was cut down (H tree stump still visibly pushed over)
