2. Why are you seeking relief from a literal enforcement of this Zoning Bylaw?
   Attach a written statement that specifically describes existing conditions and your objectives, along with plans, specifications, certified plot plan and any documentation necessary to support your request.

3. Show evidence that you meet the minimum requirements of a variance under section 173-6 B (2) of the Littleton Zoning Bylaws.

Soaring Hawk Meditation Center – 547 Great Rd, Littleton MA

ZBA Application Narrative

Seeking relief of Zoning Bylaw 173-31, "Intensity of Use" regarding placement of a new fence

OVERVIEW

Soaring Hawk Meditation Center resides in the town’s historic 1861 Poor House, also known as the Almshouse. Purchased in 2014, Soaring Hawk has restored, reconstructed and renovated the old house, and has significantly improved and landscaped the site.

The property has a rich history in Littleton, having served as a working poor house and farm up until 1919, before being converted into a residential property. At the time the property was purchased by Soaring Hawk, it contained a residential and a business use.

547 Great Road is uniquely situated between an existing residential neighborhood along Beaver Brook Road to the north, and existing industrial/commercial uses on its south side. Both its land and building, while located in the IA district are predominantly more residential in character than commercial.

OVERVIEW

Soaring Hawk is looking to construct a 118 foot long privacy fence along a section of the property’s south border. Owing to the configurations of the land (existing leach field, topography, labyrinth, etc.) strict enforcement of the Zoning By-laws relative to the configuration of the fence would result in a substantial hardship.

The aesthetic qualities of the Meditation Center’s site, and its ability to provide reflective and social activities, are fundamental to Soaring Hawk’s mission. The fence is being proposed to sensitively provide an appropriate separation between Soaring Hawk’s site amenities and natural features, and the industrial uses next door (please refer to photos). The fence is also intended to serve as a backdrop to photographs of activities on the site, as well as new flowering vegetation.

Placing the proposed fence within the 50’ setback would result in a substantial hardship, as it would be in conflict with the existing septic system, stormwater drainage (rain garden), existing topography, walking labyrinth and open lawn areas.

Please note that relief from the 50’ setback requirement simply applies to the taller, more decorative central sections of the fence, and to the height of the posts between the standard 6 foot tall fence sections. The latter of which is a conventional design and construction approach for any board and rail fence design.

Please refer to the enclosed fence elevation drawings, prepared by Walpole Woodworkers. Like all other features on the Soaring Hawk site, such as bricks, historic granite, and woodwork, the fence was designed to complement the quality of the property’s inherent residential feel and New England character.
