Chapter 173

ZONING
§ 173-1 ZONING § 173-1

ARTICLE I
Purpose

§ 173-1 Purpose. [Amended 5-9-1988 ATM, Art. 14]

For the benefit of the Town of Littleton, Massachusetts, and to keep our Town a good place in which to live and work, preserve its historic rural character and its agricultural open land, and for the purposes stated in Chapters 40A, 40B and 41 of the General Laws as amended and under the authority thereof and Article 89 of the Amendments to the Constitution, the use of land, buildings and structures in this Town is hereby regulated as herein provided.
§ 173-2. Terms defined.

In this chapter, the following terms shall have the following meanings unless other meanings as required by the context or are specifically prescribed:

ACCESSORY APARTMENT — A second dwelling unit either in or added to an owner-occupied, detached single-family dwelling ("interior unit"), or in a separate accessory structure on the same lot as the principal dwelling ("exterior unit"), for use as a complete living unit, with provisions for cooking, eating, sanitation, and sleeping within the accessory apartment. Both the principal residence and the accessory apartment shall be in the same ownership.[Added 5-1-2017 ATM, Art. 17]

ACCESSORY BUILDING OR USE — A building not attached to any principal building, or a use customarily incidental to and located on the same lot with the principal building or use.¹

ADULT USE ESTABLISHMENTS — The following are businesses classified as "adult use" establishments:[Added 9-22-1997 STM, Art. 9]

A. ADULT USE — A use (whether partially or in its entirety) of a building or business for the purpose of engaging in the sale, display, hire, trade, exhibition, or viewing of materials or entertainment depicting, describing, or relating to sexual conduct or sexual excitement as defined in G.L. c.272, § 31.

B. ADULT BOOKSTORE — An establishment having as a substantial or significant portion of its stock in trade, books, magazines, and other matter which are distinguished or characterized by their emphasis depicting, describing, or relating to sexual conduct or sexual excitement as defined in G.L. c.272, § 31. For purposes herein, "substantial or significant portion of stock" shall mean more than 20% of the subject establishment's inventory stock or more than 20% of the subject premise's gross floor area.

C. ADULT LIVE ENTERTAINMENT ESTABLISHMENTS — An establishment, which as a form of entertainment, regularly features:

(1) Person or persons to perform in a state of nudity as defined in G.L. c. 272, § 31; or allows a person or persons to work in a state of nudity as defined in G.L. c. 272, § 31; or;

(2) Films, motion pictures, video cassettes, slides, or other photographic reproductions which are characterized by the depiction of description of anatomical areas or relating to sexual conduct or sexual excitement as defined in G.L. c. 272, § 31.

¹ Editor’s Note: The former definition of "accessory dwelling," which immediately followed this definition, was repealed 5-1-2017 ATM, Art. 17.
§ 173-2  LITTLETON CODE § 173-2

D. ADULT MOTION-PICTURE THEATER — An enclosed building with a capacity of 50 persons or more used for presenting material (motion picture films, video cassettes, cable television, slides or any other such visual media) distinguished by an emphasis on matter depicting, describing, or relating to nudity, sexual conduct or sexual excitement as defined in G.L. c. 272, § 31 and which excludes minors by virtue of age.

E. ADULT MINI MOTION-PICTURE THEATER — An enclosed building with a capacity for less than 50 persons, or single booths, or video screens, used for presenting material distinguished by an emphasis on matter depicting, describing, or relating to nudity, sexual conduct or sexual excitement as defined in G.L. c. 272, § 31 and which excludes minors by virtue of age.

F. ADULT VIDEO STORE — An establishment having as a substantial or significant portion of its stock in trade, for sale or rent, motion picture films, video cassettes and similar audio/visual media, which are distinguished or characterized by their emphasis depicting, describing, or relating to sexual conduct or sexual excitement as defined in G.L. c. 272, § 31. For purposes herein, "substantial or significant portion of stock" shall mean more than 20% of the subject establishment's inventory stock or more than 20% of the subject premise's gross floor area.

AFFORDABLE HOUSING (AFFORDABLE UNIT) — A dwelling unit that is affordable to and occupied by a low or moderate income household and meets the requirements for inclusion on the Massachusetts Department of Housing and Community Development (DHCD) Chapter 40B Subsidized Housing Inventory. Affordable units shall remain as affordable units in perpetuity or for the maximum period allowed by law. Such units shall have the same construction methods and exterior physical characteristics as, and be intermingled with, other units in the development.[Added 10-30-2017 STM, Art. 6]

AFFORDABLE HOUSING RESTRICTION — A contract, mortgage agreement, deed restriction or other legal instrument, acceptable in form and substance to the Town, that effectively restricts occupancy of an affordable housing unit to a qualified purchaser or renter, and which provides for administration, monitoring, and enforcement of the restriction during the term of affordability. An affordable housing restriction shall run with the land in perpetuity or for the maximum period allowed by law, and be entered into and enforceable under the provisions of G.L. c. 184, §§ 31-33, or other equivalent state law.[Added 10-30-2017 STM, Art. 6]

AFFORDABLE HOUSING TRUST FUND ("FUND") — An account established and operated by the Town for the exclusive purpose of creating, preserving, or rehabilitating affordable housing units in the Town of Littleton.[Added 10-30-2017 STM, Art. 6]

AGRICULTURAL SIGNS — Signs associated with an agricultural use as referenced in Section 3 of M.G.L., Ch. 40A, offering for sale, produce and other farm products, with the sign identifying the farm and indicating only
the name and price of the farm products which are for sale during the season that the sign is displayed. [Added 5-4-1996 ATM, Art. 23]

ASSISTED LIVING RESIDENCE — An assisted living residence is a long-term senior residential facility that provides personal care support services such as meals, medication management, bathing, dressing, and transportation, principally for people age 55 years and over, and certified by the Massachusetts Office of Elder Affairs. [Added 10-30-2017 STM, Art. 5]

BUILDING HEIGHT — The vertical distance from the mean finish grade of the ground adjoining the building to the highest point of the roof (or parapet) for flat or shed roofs, to the deckline for mansard roofs and to the mean height between eaves and ridge for gable, hip and gambrel roof. Not included are spires, cupolas, television antennas or other parts of structures which do not enclose potentially habitable floor space.

CAMPGROUND — Premises used for travel trailers, campers, tents or temporary overnight facilities of any kind where a fee is charged.

CAMPING, SUPERVISED — Facilities for a continuing supervised recreational, health, educational, religious and/or athletic program, with persons enrolled for periods of not less than one week and with group dining if overnight accommodations are included.

CANNABIS — See "marijuana." [Added 5-7-2018 ATM, Art. 20]

COMMERCIAL POWER GENERATION — Premises principally used for the generation of electric power, other than by a municipal or other public utility. [Added 5-9-1988 ATM, Art. 12]

COMMERCIAL SOLAR PHOTOVOLTAIC INSTALLATION — A solar photovoltaic system that is mounted on the ground, roof, or structure; and generates electric power onto the Littleton Electric Light Department’s (LELD) distribution system for sale to LELD or others. [Added 5-2-2011 ATM, Art. 20]

CONCEPT PLAN — A development plan, building plans, impact analyses and other materials as required herein, subject to approval by two-thirds vote of the Town Meeting. [Added 5-5-2007 ATM, Art. 14]

CONFERENCE CENTER — Premises principally used for business or professional conferences, seminars or training, with less than one-third of the floor area on the premises devoted to room rental for transient trade. (If the percentage is larger, the use is considered a hotel or motel.) [Added 5-9-1988 ATM, Art. 12]

CONTINUING CARE RETIREMENT COMMUNITY — A Senior Residential Development that provides a continuum of senior housing and care services principally for people age 55 years and over, operated or sponsored as a coordinated unit by a corporation or organization, having among its principal purposes the provision of housing and associated services for senior citizens. A CCRC shall include a variety of housing types and may also include semi-institutional facilities such as skilled nursing care or a rehabilitation facility. [Added 10-30-2017 STM, Art. 5]
§ 173-2

COTTAGE DWELLING — A detached one-family dwelling that does not exceed 1,800 square feet of livable floor area (meaning the heated floor area of the building above finished grade, excluding non-dwelling areas such as attic space or a garage). [Added 10-30-2017 STM, Art. 5]

CRAFT MARIJUANA COOPERATIVE — A Marijuana Cultivator comprised of residents of the Commonwealth and organized as a limited-liability company, limited-liability partnership, or cooperative corporation under the laws of the Commonwealth, and which is licensed to cultivate, obtain, manufacture, process, package and brand cannabis or marijuana products to transport marijuana to Marijuana Establishments, but not to consumers. [Added 5-7-2018 ATM, Art. 20]

DATA-PROCESSING CENTER — Premises principally used for the storing or processing of information by computer. [Added 5-9-1988 ATM, Art. 12]

DWELLING — A building or part of a building used exclusively as the living quarters for one or more families. ²

DWELLING, MULTIFAMILY — A building designed or intended or used as the residence of three or more families, each occupying a separate dwelling unit and living independently of each other, and who may have a common right in halls and stairways; with the number of families in residence not exceeding the number of dwelling units provided. [Added 10-30-2017 STM, Art. 5]

DWELLING, SINGLE-FAMILY DETACHED — A dwelling other than a mobile home, singly and apart from any other building, designed or intended or used exclusively as the residence of one family. [Added 10-30-2017 STM, Art. 5]

DWELLING, TOWNHOUSE OR SINGLE-FAMILY ATTACHED — A residential building of at least three but not more than eight single-family dwelling units sharing at least one common or party or fire wall, and with each building having at least one floor at ground level with a separate entrance. [Added 10-30-2017 STM, Art. 5]

DWELLING, TWO-FAMILY — A detached residential building designed or intended or used exclusively as the residence of two families. A two-family dwelling shall not include a detached single-family dwelling with an accessory apartment. [Added 10-30-2017 STM, Art. 5]

EXTENSIVE RECREATION — Golf courses laid out substantially in accordance with the usual requirements or specifications of the United States Golf Association, ski areas and other recreational uses of similar nature which primarily use and preserve open space, together with clubhouses and appurtenant facilities, whether or not operated for profit. Such appurtenant facilities may include provisions for recreational activities not directly connected with the use of open space, provided that in no event shall structures occupy more than 5% of the lot area.

² Editor’s Note: The former definition of “dwelling, single-family,” which immediately followed this definition, was repealed 10-30-2017 STM, Art. 5.
§ 173-2 ZONING § 173-2

EXTERIOR SURFACE WALL AREA — The surface area of a single side of a building, including glass and doors, but not including roof area.

FAMILY — Any number of individuals living and cooking together as a single housekeeping unit, plus no more than three boarders or lodgers. [Amended 9-14-1992 STM, Art. 13]

FLAGS — A piece of fabric identifying a nation, state, city or Town, expressing a political statement, but not advertising sales, special events, or changes in the nature of an operation. [Added 5-4-1996 ATM, Art. 23]

INDEPENDENT LIVING UNITS — Multifamily buildings in a Senior Residential Development that are designed and intended for occupancy principally by people age 55 years and over, with units that include some basic services such as meals, housekeeping, grounds maintenance, security, and common areas and common facilities for events and activities benefiting residents of the development. [Added 10-30-2017 STM, Art. 5]

INSIGNIA — An identifying symbol. [Added 5-4-1996 ATM, Art. 23]

LODGING HOUSE — A dwelling in which rooms are rented as an accessory use to more than three and fewer than 10 unrelated individuals. [Amended 9-14-1992 STM, Art. 13]

LOT — A continuous parcel of land, in single or joint ownership, with legally definable boundaries.

LOT AREA — The horizontal area of the lot exclusive of any area in a street or recorded way open to public use. At least 90% of the lot area required for zoning compliance or 36,000 square feet, whichever is less, shall be land not under water nine months or more in a normal year and not wetland as defined by the Wetland Protection Act. [Amended 5-9-1988 ATM, Art. 14]

LOT COVERAGE — The percentage of lot area covered by structures and roofs or by structures, roofs, and paving. [Amended 5-9-1988 ATM, Art. 14]

LOW OR MODERATE INCOME (HUD INCOME LIMIT) — Household income that does not exceed 80% of the area median family income, adjusted for household size, for the metropolitan area that includes the Town of Littleton as determined by the United States Department of Housing and Urban Development (HUD). [Amended 10-30-2017 STM, Art. 6]

MANUFACTURING — Transformation of materials or components into new products, including fabrication, processing, finishing or packaging. [Added 5-9-1988 ATM, Art. 12]

MARIJUANA — Marijuana as defined in MGL c. 94G, § 1, 935 CMR 500 et seq. and 105 CMR 725 et seq. [Added 5-5-2014 ATM, Art. 17; amended 5-7-2018 ATM, Art. 20]

MARIJUANA CULTIVATOR — An entity licensed to cultivate, process and package marijuana, to transfer marijuana to Marijuana Establishments, but not to consumers. [Added 5-7-2018 ATM, Art. 20]
MARIJUANA ESTABLISHMENT — A Marijuana Cultivator, Craft Marijuana Cooperative, Marijuana Product Manufacturer, Marijuana Retailer, Marijuana Testing Laboratory, Marijuana Research Facility, Marijuana Transporter, or any other type of licensed marijuana-related business, except a Medical Marijuana Treatment Center.[Added 5-7-2018 ATM, Art. 20]

MARIJUANA ESTABLISHMENT AGENT — A board member, director, employee, executive, manager, or volunteer of a Marijuana Establishment, who is 21 years of age or older. Employee includes a consultant or contractor who provides on-site services to a Marijuana Establishment related to the cultivation, harvesting, preparation, packaging, storage, testing, or dispensing of marijuana.[Added 5-7-2018 ATM, Art. 20]

MARIJUANA FOR ADULT USE — Marijuana and Marijuana products that are not designated and restricted for use by, and for the benefit of, Qualifying Patients in the treatment of Debilitating Medical Conditions as defined in 105 CMR 725 et seq.[Added 5-7-2018 ATM, Art. 20]

MARIJUANA FOR MEDICAL USE — Means Marijuana that is designated and restricted for use by, and for the benefit of, Qualifying Patients in the treatment of Debilitating Medical Conditions as defined in 105 CMR 725 et seq.[Added 5-5-2014 ATM, Art. 17]

MARIJUANA INFUSED PRODUCT (MIP) — Means Marijuana Infused Product as defined in 105 CMR 725 et seq.[Added 5-5-2014 ATM, Art. 17]

MARIJUANA MICRO-BUSINESS — A co-located Marijuana Establishment that can be either a Tier 1 Marijuana Cultivator or Product Manufacturer or both, in compliance with the Cannabis Control Commission's operating procedures for each license; provided, however, that a Micro-Business that is a Marijuana Product Manufacturer may purchase no more than 2,000 pounds of marijuana per year from other Marijuana Establishments.[Added 5-7-2018 ATM, Art. 20]

MARIJUANA PRODUCT MANUFACTURER — An entity licensed to obtain, manufacture, process and package cannabis or marijuana products and to transfer these products to other Marijuana Establishments, but not to consumers.[Added 5-7-2018 ATM, Art. 20]

MARIJUANA RESEARCH FACILITY — An entity licensed to engage in research projects by the Commission.[Added 5-7-2018 ATM, Art. 20]

MARIJUANA RETAILER — An entity licensed to purchase and transport cannabis or marijuana product from Marijuana Establishments and to sell or otherwise transfer this product to Marijuana Establishments and to consumers.[Added 5-7-2018 ATM, Art. 20]

MARIJUANA TESTING LABORATORY — Either an independent testing laboratory or a standard testing laboratory that is licensed by the Cannabis Control Commission to test cannabis or marijuana products in compliance with 935 CMR 500.[Added 5-7-2018 ATM, Art. 20]
MARIJUANA TRANSPORTER — An entity that is licensed to purchase, obtain, and possess cannabis or marijuana product solely for the purpose of transporting, temporary storage, sale and distribution to Marijuana Establishments, but not to consumers. Marijuana Transporters may be an Existing Licensee Transporter or Third Party Transporter.[Added 5-7-2018 ATM, Art. 20]

MEDICAL MARIJUANA TREATMENT CENTER AND/OR REGISTERED MARIJUANA DISPENSARY (RMD) — A not-for-profit entity registered under 105 CMR 725.100 that acquires, cultivates, possesses, processes (including development of related products such as edible MIPs, tinctures, aerosols, oils, or ointments), transfers, transports, sells, distributes, dispenses, or administers marijuana, products containing marijuana, related supplies, or educational materials to registered qualifying patients or their personal caregivers. Unless otherwise specified, RMD refers to the site(s) of dispensing, cultivation, and preparation of marijuana.[Added 5-5-2014 ATM, Art. 17]

MIXED USE — A combination of residential and commercial uses, arranged vertically (in multiple stories of buildings), or horizontally (adjacent to one another in one or more buildings within a lot).[Added 5-3-2010 STM, Art. 4]

MOBILE HOME — A movable or portable dwelling unit on a chassis, designed for connection to utilities when in use and designed without the necessity of a permanent foundation for year-round living.

MOTOR VEHICLE SERVICE STATION — Premises devoted to retail sale of fuel and lubricants and/or washing of motor vehicles and/or repair services.[Amended 5-8-1995 ATM, Art. 30; 11-4-2013 STM, Art. 10]

MUNICIPAL EDUCATION STRUCTURE — A building used by the Town of Littleton for public education purposes.[Added 6-15-2000 STM, Art. 2]

QUALIFIED AFFORDABLE HOUSING PURCHASER OR TENANT — A Low- or Moderate-Income Household that purchases or rents and occupies an Affordable Housing unit as its principal residence.[Added 10-30-2017 STM, Art. 6]

REGISTERED MARIJUANA DISPENSARY (RMD) — See also "medical marijuana treatment center."[Added 5-5-2018 ATM, Art. 17]

REMOTE SECONDARY ACCESS — Property access to a business or group of businesses in addition to the principle property access.[Added 5-4-1996 ATM, Art. 23]

RESEARCH AND DEVELOPMENT — Industrial or commercial experimentation, design, nonroutine testing or construction of prototypes, but with any continuous production limited to pilot plant use of not more than 25% of the floor area on the premises.[Added 5-9-1988 ATM, Art. 12]

RESIDENTIAL SOCIAL SERVICE FACILITY — A dwelling where care and supervision, either licensed, contracted or supervised by a federal or state agency, is provided to individuals who are handicapped, aged, disabled
or undergoing rehabilitation. The term includes halfway houses but not nursing homes or foster homes.

SELF-STORAGE FACILITY — An establishment consisting of a structure or group of structures containing separate storage spaces, possibly of varying sizes, leased or rented for dead storage as individual leases. Individual storage spaces shall be leased or rented to tenants who are to have access to said space for the purpose of storing or removing personal property. No individual storage space shall exceed 900 square feet of gross floor area.[Added 5-8-2000 ATM, Art. 27]

SETBACK — An area open to the sky, located between a street or other property line and any structure or element thereof, other than a fence, wall, other customary yard accessory or projection allowed to encroach on building lines by the State Building Code, measured perpendicular to the street or property line.

SIGN — Any device displaying, or any display of, any letter, work, picture, symbol or object designed to inform or attract the attention of persons not on the premises on which such device or display is located, including billboards and any such internally or decoratively illuminated building surface other than unobstructed window glass.

SIGN AREA — The surface area within a single continuous perimeter enclosing all of the display area, but not including structural members not bearing advertising matter, unless internally or decoratively lighted. One side only of flat, back-to-back signs shall be counted.

STRUCTURE — A combination of materials assembled at a fixed location to give support or shelter, such as a building, retaining wall which retains four or more feet of unbalanced fill, fences over six feet high, swimming pools that contain water over 24 inches in depth and 250 square feet of surface area or the like. The word "Structure" shall be construed, where the context requires, as though followed by the words "or parts thereof."[Amended 5-7-2001, ATM, Art. 20]

TEMPORARY SIGNS — Any sign displayed for up to a maximum of 30 days.[Added 5-4-1996 ATM, Art. 23]

TOXIC OR HAZARDOUS MATERIALS — All liquid hydrocarbon products, including but not limited to gasoline, fuel and diesel oil, and also any other toxic, caustic or corrosive chemicals, radioactive materials or other substance controlled as being toxic or hazardous by the Division of Hazardous Waste under the provisions of Chapter 21(c) of the General Laws.

TRUCK TERMINAL — Premises principally used for the parking, dispatching and maintenance of trucks and/or loading or unloading of cargo into vehicles, but with only incidental storage on the premises, and not including such activities if accessory to a principal use, such as a warehouse or processing operation.[Added 5-9-1988 ATM, Art. 12]

VEHICULAR RETAIL SALES — Any use involving the sale or lease of new or used motor vehicles (which shall include without limitation all varieties of
automobiles, motorcycles, mopeds, off road sporting vehicles, snowmobiles, jet skis and boats), parts or accessories, or the commercial display or storage of any motor vehicles.[Added 11-4-2013 STM, Art. 10]

WAREHOUSING, DISTRIBUTION CENTER — Premises used primarily for indoor storage of goods and materials for later distribution or use but not for sale on the premises, with or without accessory truck terminal facilities.[Added 5-9-1988 ATM, Art. 12]

WHOLESALING — Sale of commodities in quantity for resale or further processing, with only incidental retail sales, if any.[Added 5-9-1988 ATM, Art. 12]

WINDOW SIGNS — Signs painted or fastened to window glass and signs immediately inside window glass.[Added 5-4-1996 ATM, Art. 23]

WIRELESS TELECOMMUNICATIONS TOWER AND FACILITIES — A wireless telecommunications facility, shall include towers, antennae, panels, and appurtenant structures designed to facilitate the following types of services: cellular telephone service, personal communications services, and enhanced specialized mobile radio service.[Added 2-10-1997 STM, Art. 3]
§ 173-3

ARTICLE III
Administration and Procedures

This chapter shall be enforced by the Building Inspector.

§ 173-4. Certification required.
Buildings or structures may not be erected, substantially altered, moved or changed in use, and land may not be substantially altered or changed in principal use as defined in § 173-26A, without certification by the Building Inspector that such action is in compliance with then applicable zoning or without review by him/her regarding whether all necessary permits have been received from those governmental agencies from which approval is required by federal, state or local law. Issuance of a building permit or certification of use and occupancy, where required under the Commonwealth of Massachusetts State Building Code, may serve as such certification.

§ 173-5. Enforcement actions; violations and penalties. [Amended 5-9-1988 ATM, Art. 14]
The Building Inspector shall take such action as may be necessary to enforce full compliance with the provisions of this chapter and of permits and variances issued hereunder, including notification of noncompliance and request for legal action through the Select Board to the Town Counsel. Any person violating any provision of this chapter, any of the conditions under which a permit is issued or any decision rendered by the Board of Appeals may be fined not more than $300 for each offense. Each day that such violation continues shall constitute a separate offense.

A. Establishment. A Board of Appeals of five members shall be appointed by the Select Board and act in all matters under this chapter in accordance with the provisions of Chapters 40A, 40B and 41 of the General Laws, as amended. The Select Board shall also appoint in like manner four associate members of the Board of Appeals; and, in case of a vacancy, absence, inability to act or conflicts of interest on the part of a member of said Board, his place may be taken by an associate member designated by the Chairman of the Board of Appeals.

B. Powers. The Board of Appeals shall have and exercise all the powers granted to it by Chapters 40A, 40B and 41 of the General Laws and by this chapter. The Board's powers shall include the following:

(1) To hear and decide applications for special permits upon which the Board is empowered to act under this chapter, in accordance with § 173-7.
§ 173-6

LITTLETON CODE

§ 173-7

(2) To hear and decide appeals or petitions for variances from the terms of this chapter, including variances for use, with respect to particular land or structures. Such variances shall be granted only in cases where the Board finds all of the following:

(a) That a literal enforcement of the provisions of this chapter would involve a substantial hardship, financial or otherwise, to the petitioner or appellant.

(b) That the hardship is owing to circumstances relating to the soil conditions, shape or topography of such land or structures and especially affecting such land or structures but not affecting generally the zoning district in which it is located.

(c) That desirable relief may be granted:

[1] Without substantial detriment to the public good; or
[2] Without nullifying or substantially derogating from the intent or purpose of this chapter.

(3) To hear and decide other appeals. Other appeals will also be heard and decided by the Board of Appeals when taken by:

(a) Any person aggrieved by reason of his inability to obtain a permit or enforcement action from any administrative officer under the provisions of Chapter 40A of the General Laws; or

(b) The Metropolitan Area Planning Council; or

(c) Any person, including an officer or board of the Town of Littleton or of any abutting Town, if aggrieved by any order or decision of the Building Inspector or other administrative official in violation of any provision of Chapter 40A of the General Laws or this chapter.

(4) To issue comprehensive permits. Comprehensive permits for construction may be issued by the Board of Appeals for construction of low- or moderate-income housing by a public agency or limited-dividend or nonprofit corporation upon the Board’s determination that such construction would be consistent with local needs, whether or not consistent with local zoning, building, health or subdivision requirements, as authorized by MGL C. 40B, §§ 20 through 23.

(5) To issue withheld building permits. Building permits withheld by the Building Inspector acting under MGL C. 41, § 81Y as a means of enforcing the Subdivision Control Law may be issued by the Board of Appeals where the Board finds practical difficulty or unnecessary hardship and if the circumstances of the case do not require that the building be related to a way shown on the subdivision plan in question.
§ 173-7  ZONING  § 173-10

§ 173-7. Special permits.

A. Special permit granting authority. Unless specifically designated otherwise, the Board of Appeals shall act as the special permit granting authority.

B. Public hearing. Special permits shall only be issued following public hearings held within 65 days after filing with the special permit granting authority an application, a copy of which shall forthwith be given to the Town Clerk by the applicant.

C. Criteria. Special permits shall only be granted if it appears to the special permit granting authority that no significant nuisance, hazard or congestion will be created and that there will be no substantial harm to the neighborhood or derogation from the intent of this chapter.

D. Conditions. Special permits may be granted with such reasonable conditions, safeguards or limitations on time or use as the special permit granting authority may deem necessary to serve the purposes of this chapter.

E. Expiration. Special permits shall lapse 24 months following the grant thereof (except such time required to pursue or await the determination of an appeal referred to in MGL C. 40A, § 17) if a substantial use or construction has not sooner commenced, except for good cause.

Where the application of this chapter imposes greater restrictions than those imposed by any other regulations, permits, restrictions, easements, covenants or agreements, the provisions of this chapter shall control.

Construction or operations under a building or special permit shall conform to any subsequent amendment of this chapter, unless the use or construction is commenced within a period of six months after the issuance of the permit, and in cases involving construction, unless such construction is continued through to completion as continuously and expeditiously as is reasonable.

§ 173-10. Nonconforming uses and structures.

A. Nonconforming single- or two-family residential structures lawfully in existence at the time of the enactment of this Amendment may be extended, altered or restored if the following conditions apply:

[Amended 9-18-1995 STM, Art. 16]

(1) The proposed changes, with the exception of the existing nonconformity, comply with the current Zoning Bylaw;
(2) The proposed changes do not prevent compliance with any other applicable laws or regulations;

(3) There is no change in use of the structure; and

(4) The proposed changes do not intensify the existing nonconformity. The word intensify shall include any increase in any exterior dimension of that part of the structure which is nonconforming.

Such extension, alteration or restoration is deemed not to increase the nonconforming nature of the structure, does not involve any change of use, and is allowable as of right. The building permit shall state that the extension, alteration or restoration is allowed under § 173-10A.

B. Any use or structure not conforming to § 173-10A of this chapter may be continued if the use or structure was lawfully existing at the time that it became nonconforming, subject to the following: [Amended 9-18-1995 STM, Art. 16; 5-4-2015 ATM, Art. 17]

(1) Alteration of nonconforming structures with respect to an existing nonconformity. The Board of Appeals may, by special permit, allow the reconstruction, extension, alteration or change of a preexisting nonconforming structure that extends or increases an existing nonconformity, where it determines that the proposed modification will not be substantially more detrimental than the existing nonconforming structure to the neighborhood.

(2) Alteration of nonconforming structures with respect to a new nonconformity. For any reconstruction, extension, alteration or change of a nonconforming structure that involves the creation of a new nonconformity, such new nonconformity shall require the issuance of a variance from the Board of Appeals.

(3) Alteration of a nonconforming use. The Board of Appeals may, by special permit, allow the change, extension, or alteration of a preexisting nonconforming use where it determines that the proposed modification will not be substantially more detrimental than the existing nonconforming use to the neighborhood.

(4) Restoration. Any legally nonconforming building or structure may be reconstructed if destroyed by fire or other accidental or natural cause if reconstructed within a period of two years from the date of the catastrophe, or else such reconstruction must comply with this chapter.

(5) Abandonment. A nonconforming use which has been abandoned, discontinued for a period of two years or changed to a conforming use shall not be reestablished, and any future use of the premise shall conform with this chapter.
§ 173-11. Isolated lots and subdivisions.

Under MGL C. 40, § 6, lots not held in common ownership with any adjoining land are generally not subject to subsequent amendments in dimensional requirements, and land shown on subdivisions or other plans endorsed by the Planning Board are exempted from subsequent zoning amendments in certain respects for a limited period of time (See MGL C. 40A, § 6). Building upon, but not subdivision of, any lot, if nonconforming but having an area of 5,000 square feet or more and frontage of 50 feet or more and held in ownership separate from all adjacent land, shall be governed by those lot area, frontage and side or rear setback requirements applicable to it at the time of its recording by plan or deed as a lot in separate ownership, except in cases where those requirements have subsequently been reduced through amendment of the Zoning Bylaw and in cases of building for multifamily dwellings, in both of which cases current requirements shall apply. Nonconforming lots may be changed in size or shape or their land recombined into fewer lots. In doing so, such lots will not lose this exemption from current requirements, so long as the change does not increase the frontage or area of a conforming lot by reducing the frontage or area of a nonconforming one.

The invalidity of any section or provision of this chapter shall not invalidate any other section or provision of this chapter.

§ 173-13. through § 173-15. (Reserved)
§ 173-16  
ZONING  
§ 173-18

ARTICLE IV  
Site Plan Requirements

Site plan approval by the Planning Board is required for the creation of, addition to, or substantial alteration of all non-residential and non-agricultural structures, of a parking area having eight or more spaces, and for any substantial deviation from an approved site plan, or when any of the above situations is subject to a change of use. In addition the Building Commissioner may require a site plan review if he/she deems it necessary in order to determine zoning compliance. Building permit applications subject to site plan review shall be accompanied either by six copies of a site plan conforming to § 173-19, to be transmitted to the Planning Board by the Building Inspector, or by a copy of a site plan signed by the Planning Board or by a written statement from the Planning Board that the site plan has been submitted to but not acted on by the Planning Board. The Building Inspector shall notify the Planning Board 30 days prior to the date by which he/she must take action on such plans and shall not approve any building permit subject to this section without written site plan approval of the Planning Board or its designated agent, unless by that date no notice of action has been received from the Planning Board.

§ 173-17. Preparation of plans.

Plans subject to site plan review shall be prepared by a registered architect, landscape architect or professional engineer. Such plans shall show the boundaries of the lot, existing and proposed topography, existing and proposed structures, walkways and principal drives and service entries, parking, landscaping, screening, park or recreation areas, utilities and storm drainage.

§ 173-18. Design requirements.

The Planning Board shall approve a site plan only upon its determination of the following:

A. Internal circulation and egress are such that traffic safety is protected, and access via minor streets servicing single-family homes is minimized.

B. Visibility of parking areas from public ways and residences is minimized, and lighting of these areas avoids glare on adjoining properties.

C. Major topographic changes or removal of existing trees is minimized.

D. Adequate access to each structure for fire and service equipment is provided.
§ 173-18 LITTLETON CODE § 173-20

E. Utilities and drainage in the vicinity either are or will be made adequate, based on the functional standards of the Planning Board’s Subdivision Regulations.

The Planning Board shall indicate its approval, conditional approval or disapproval in writing to the Building Inspector. The Planning Board shall also so endorse the plans, forwarding one endorsed copy to the Building Inspector if submitted by the Building Inspector or to the applicant if submitted by the applicant and one to the Town Clerk and retaining one endorsed copy for its own use and records.

§ 173-20. Special design provisions for the Village Common District. [Added 5-3-2010 STM, Art. 4]

The Planning Board shall consider the following additional design criteria in conducting Site Plan Review for projects in the Village Common zoning district. The Planning Board may adopt additional Design Guidelines to advance the goals of the Village Common.

A. Design goals. Buildings and renovations shall be of a design similar to or compatible with traditional architecture in the Town of Littleton in terms of scale, massing, roof shape, spacing and exterior materials. The design standards are intended to promote quality development consistent with the Town’s sense of history, human scale and pedestrian-oriented village character.

B. Building scale. The size and detailing of buildings shall reflect the community preference for moderate-scale structures that resemble houses or barns, and do not resemble “big box shopping centers”. New buildings and/or substantial alterations shall incorporate features to add visual interest while reducing the appearance of bulk or mass. Such features include varied facades, rooflines, roof heights, materials, and details such as brick chimneys or shutters.

Buildings shall relate to the pedestrian scale by:

• Including appropriate architectural details to add visual interest along the ground floor of all facades that face streets, squares, pedestrian pathways, parking lots, or other significant pedestrian spaces.

• Articulate the base, middle, and top of the facade separated by cornices, string cornices, step-backs or other similar features.

• Continuous lengths of flat, blank walls adjacent to streets, pedestrian pathways, or open spaces shall not be permitted.
C. Roof form. New construction, including new development above existing buildings and/or substantial alterations, shall incorporate gables or other traditional pitched roof forms which will be consistent with the historic architecture of the Town of Littleton. Flat roofs are discouraged.

Mechanical equipment located on roofs shall be screened, organized and designed as a component of the roof design, and not appear to be a leftover or add-on element.

D. Entrances. All primary commercial and residential building entrances shall be visible from the right-of-way and the sidewalk, and shall have an entrance directly accessible from the sidewalk.

Doors shall not extend beyond the exterior facade into pedestrian pathways.

E. External materials and appearance. Predominant wall materials shall have the appearance of wood, brick or stone painted or coated in a [natural] non-metallic finish. Cladding materials should be consistent on all facades with the exception of special design elements such as gables or dormers.

Awnings and canopies shall be compatible with the architectural style of the building. Colors and patterns used for awnings and canopies shall be subdued and compatible with existing awnings on adjacent buildings.

Except for minor trim, the building shall avoid the appearance of reflective materials such as porcelain enamel or sheet metal. Window panes shall be non-reflective.

Ground floor commercial building facades facing streets, squares, or other significant pedestrian spaces shall contain transparent windows encompassing a minimum of 40% of the facade surface.

Wherever possible, existing historic structures on the site shall be preserved and renovated for use as part of the development.

Any alteration of or addition to an existing historic structure shall employ materials, colors and textures as well as massing, size, scale and architectural features that are compatible with the original structure. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.

F. Landscaping. To the maximum extent possible projects in the Common Area shall provide pedestrian-friendly amenities, such as wide sidewalks/pathways, outdoor seating, patios, porches or courtyards. Site landscaping shall be maximized.
Links/sidewalks designed to connect parking areas with adjacent developments are encouraged to further the goal of providing safe pedestrian access to businesses within the Littleton Common.

G. Service areas, utilities and equipment. Service and loading areas and mechanical equipment and utilities shall be unobtrusive or sufficiently screened so that they are not visible from streets or primary public open spaces and shall incorporate effective techniques for noise buffering from adjacent uses. Waste disposal areas shall follow all relevant requirements of the current Littleton zoning by-law.

H. Sustainable building design. It is desirable that new buildings constructed in the Littleton Common Area comply with the current Leadership in Energy and Environmental Design (LEED) criteria, as promulgated by the U.S. Green Building Council to the maximum extent feasible.

I. Vehicle and pedestrian features. Vehicle, pedestrian and bicycle features shall be designed to provide a network of pathways, and promote walking within the Littleton Common area. Curb cuts shall be minimized.

J. Parking. To maintain a pedestrian-friendly environment, motor vehicle parking spaces shall be located behind or beside buildings wherever possible. Parking located directly between the building and the street alignment shall be discouraged.

K. Bicycle parking. Bicycle parking shall be provided for all new development, shall be at least 50% sheltered from the elements, and shall be located as close as possible to the building entrance(s). Any property required to have bicycle parking may establish a shared bicycle parking facility with any other property owner within the same block.

L. Appointment of Design Advisory Team (DAT). The Planning Board may, at its option, appoint a Design Advisory Team to assist in the review of any project in the Littleton Village Common zone that requires Site Plan Review pursuant to Section 173-20. Members of the DAT shall include: one or more Planning Board member(s); professional architect(s); landscape architect(s) or design related professional(s); Historical Commission member(s); business owner(s).

The DAT will provide advisory professional design review assistance to the Planning Board.

The DAT may also submit a written report to the Planning Board. The DAT will be appointed at a regularly scheduled meeting where public notice has been provided.

At the direction of the Planning Board, a project applicant may be required to meet with the DAT to discuss resolution of design concerns.
§ 173-21. (Reserved)

A. Districts enumerated.
   
   (1) For the purpose of this chapter, the Town of Littleton is hereby divided into the following types of zoning districts [Amended 5-3-2010 STM, Art. 4]:
      
      Residence District R
      Business Districts
      Village Common VC
      Business B
      Industrial Districts
      Industrial A I-A
      Industrial B I-B
   
   (2) In addition, there are Wetlands, Floodplains, Aquifer Water Resource, Littleton Village Overlay District West — Beaver Brook Area, Registered Marijuana Dispensary Overlay Districts and Adult Use Marijuana Retail Overlay District. [Amended 5-3-2010 STM, Art. 5; 5-5-2014 ATM, Art. 17; 5-7-2018 ATM, Art. 20]

B. Zoning Map. The boundaries of these districts are defined and bounded on the set of maps entitled "Zoning and Property Maps, Littleton, Mass.,” originally dated May 10, 1980, as most recently amended, on file with the Town Clerk. These maps and all explanatory matter thereon are hereby made part of this chapter. Zoning boundaries, except for wetlands, shown on the map entitled "Zoning Map," dated February 1, 1973, as most recently revised, shall be for information only.

C. Boundary lines. Except when labeled to the contrary, boundary or dimension lines shown approximately following or terminating at street, railroad or utility easement center or layout lines, boundary or lot lines or the channel of a stream shall be construed to be actually at those lines; when shown approximately parallel, perpendicular or radial to such lines shall be construed to be actually parallel, perpendicular or radial thereto. When not locatable in any other way, boundaries shall be determined by scale from the map. Whenever the exact location of zoning boundary lines cannot be determined under the provisions stated above, the location of such lines shall be determined by the Board of Appeals.

§ 173-23. through § 173-24. (Reserved)
§ 173-25. Use regulations.

A. General. No building or structure shall be erected or used, and no land shall be used, except as set forth in the Use Regulations Schedule or as exempted by §§ 173-8 through 173-11 or by statute. Symbols employed shall mean the following:

(1) Permitted uses:
   Y — A permitted use.
   N — An excluded or prohibited use.

(2) Uses authorized under special permit as provided for in § 173-7:
   A — Acted on by Board of Appeals.
   P — Acted on by Planning Board.
   S — Acted on by Select Board.

B. More than one use. Where an activity might be classified under more than one of the following uses, the more specific classification shall determine permissibility; if equally specific, the more restrictive shall govern.

A. Principal uses.

**NOTES:**

1. See § 173-68, Conversion of dwellings.

2. A special permit for a nursing home in a residential area shall not be granted unless the plans, in accordance with which the nursing home is to be constructed, show that it will comply with the following conditions: no structure is to be erected within 600 feet of a street line or within 200 feet of a side line or rear line; ingress and egress are onto a street over a way or a right-of-way with a width of 50 feet or more; there is a lot area of 10,000 square feet for each bed in the facility; no building facade or roof has length exceeding 150 feet without a horizontal break of at least three feet.

3. Provided that all building code, health and Zoning By-Law requirements are met and that the specific premises are not unsuitable in relation to the needs of the persons being cared for.

4. However, food may not be sold directly to persons remaining in their vehicles, and the use requires a special permit if food is to be sold packaged for takeout (other than where the takeout is clearly incidental to service for on-premises consumption).

5. Only if screened. See § 173-27B.

6. See § 173-69, except when proposed use is permitted by the existing zoning.

7. No maintenance or service of trucks as an accessory use if more than four trucks on premises.
§ 173-26  ZONING  § 173-26

8 Except "P" if there is more than 50,000 square feet gross floor area in other nonresidential uses on the lot or within 2,000 feet of the boundary of the lot and the use is contained in a structure chiefly devoted to other permitted uses and the use occupies not more than 10% of the structure's floor area.

9 Except if the proposed location is on municipally owned or controlled land, or fully enclosed within an existing Church steeple, then a special permit is required from the Planning Board.

10 Except that vehicular retail sales shall be an excluded/prohibited use (N) within the Littleton Village Overlay District West — Beaver Brook Area District.

11 "Accessory apartment (see Article XIII)" to read as follows: Accessory apartment is permitted only if it conforms to § 173-58 or § 173-59; otherwise, it shall require a special permit from the Zoning Board of Appeals.

A. General. All structures hereafter erected in any district shall be located on a lot such that all of the requirements set forth in the following table are complied with, except where specifically exempted by this chapter or by the General Laws.

B. Changing lot dimensions. No existing lot shall be changed in size or shape so as to result in violation of the requirements set forth below.

C. Statutory exemptions. MGL C. 40A, § 6, exempts certain residential lots from some of those requirements and exempts for some time certain lots on approved subdivision plans. (See also § 173-11.)

D. Street setback. On corner and through lots, street setbacks shall be maintained from each abutting street or way which qualifies to provide lot frontage for division of a parcel into lots. Except where stated to the contrary, all street setbacks shall be measured from the legal boundary of the way, but, where no such boundary is established, the setbacks shall be measured from a line 25 feet from the center of the traveled roadway.

Lots having less than the normally required lot frontage may be created and built upon for residential use, provided that such lots are shown on a plan endorsed by the Planning Board "Approved for Reduced Lot Frontage." Plans shall be so endorsed if meeting each of the following, but not otherwise:

A. Each lot shall have frontage of at least 35 feet.

B. Egress over that frontage shall create no greater hazard owing to grade and visibility limitations than would be normal for a standard lot in the same area.

C. Each lot must contain at least 40,000 square feet more than the minimum otherwise required, without counting the area within any access strip. "Access strip" in this case shall mean any portion of the lot between the street and the point where lot width equals 100 feet or more.

D. All other normal lot requirements as specified in the Intensity of Use Schedule shall be met.

E. Each lot with less frontage than normally required shall be capable of containing a square with sides equal to the normally required lot frontage. Said square shall be shown on the plan submitted to the Planning Board for endorsement.
§ 173-28  LITTLETON CODE § 173-31

F. No lot having less than normally required frontage shall be endorsed by the Planning Board if its access strip abuts another such lot.

G. Plans of reduced frontage lots shall show the frontage of each lot abutting its access strip and, if any such lot is a reduced frontage lot, shall show the location of that lot's access strip. [Added 5-9-1988 ATM, Art. 14]

§ 173-29. Lot Shape. [Added 5-4-1998 ATM, Art. 33]
The shape of all lots shall conform to the following requirement:

\[
\frac{16A}{p^2} > 0.4
\]

Where:

- \(A\) = The lot area in square feet.
- \(P\) = The lot perimeter in feet.

§ 173-30. (Reserved)

§ 173-31. Intensity of Use Schedule. ³

³ Editor's Note: The Intensity of Use Schedule is included as an attachment to this chapter.

173:36
§ 173-32. Parking requirements.

A. General. Adequate off-street parking must be provided to service all parking demand created by new construction, whether through new structures or additions to old ones, and by change of use of existing structures. Such parking shall be either on the same premises as the activity it services or within 300 feet on a separate parcel, which may be jointly used with other premises for this purpose, provided that the continued joint use of such parcel is ensured through an agreement recorded in the Registry of Deeds.

B. Schedule of parking area requirements. In applying for a building permit or certificate of use and occupancy, the applicant must demonstrate that the following minimums will be met, unless, in performing site plan review (see § 173-16), the Planning Board determines that special circumstances render a lesser provision adequate for all parking needs. If such lesser provision is allowed, the Planning Board may impose such conditions as it deems necessary. Applicant is encouraged to consider shared parking as a possible means of reducing total parking area, subject to Planning Board approval.

[Amended 5-8-1995 ATM, Art. 32; 5-4-1998 ATM, Art. 34; 5-8-2000 ATM, Art. 27; 11-8-2005 STM, Art. 5]

1. Dwellings: two spaces per dwelling unit.
2. Motels, hotels, lodging houses: one space per guest unit, plus one space per employee.
3. Retail stores: one space per 150 square feet of leasable floor area.
4. Offices: one space per 250 square feet of gross floor area, or, if the Planning Board determines that the occupancy can adequately be predicted and controlled, one space per 1.25 employees on the largest shift.
5. Industrial, wholesale: one space per 1.25 employees on the largest shift.
6. Restaurants: one space per four seats, plus one space per employee on the larger shift.
7. Places of assembly: one space per four seats.
8. Hospitals: three spaces per bed.
9. Nursing homes: one space per four beds.
11. All others: one space per 250 square feet of gross leasable area.

173:37
§ 173-32  LITTLETON CODE  § 173-33

(12) Motor vehicle service stations: one space per pump plus one space per employee, plus three spaces per service bay.

(13) Motor vehicle service station with retail store: one space per pump, plus one space per employee, plus three spaces per service bay, plus one space per 50 square feet of gross floor area.

(14) Self-storage facilities: two spaces per 10,000 square feet of gross floor area.

C. Parking area design. No off-street parking area shall be maintained within 10 feet of a street line. Required parking areas shall be paved and have bumper or wheel guards where needed unless serving a single-family residence or unless, in performing site plan review (see § 173-16), the Planning Board determines that, because of seasonal or otherwise limited use, an alternative surface will adequately prevent dust, erosion, water accumulation or unsightly conditions. For parking areas of eight cars or more, the following shall apply:

(1) Parking area use shall not require backing onto a public way.

(2) There shall not be more than one entrance and one exit from such lots per 200 feet of street frontage or fraction thereof. No entrance or exit shall be less than 50 feet from the intersection of side lines of intersecting streets. Wherever possible, lanes of entry shall be separated from lanes of egress by not less than 40 feet and shall be clearly distinguished by directional signs or markers. If necessary to meet these egress requirements, uses shall arrange for shared access.

(3) Parking lots for eight or more cars shall be screened from any abutting residential use or public way by a four-foot width of densely planted shrubs or a fence of not less than four feet in height.

(4) Parking spaces shall each provide space adequate to park an automobile, plus means of access, with dimensions meeting standards established by the Planning Board for standard, compact and handicapped spaces.

(5) Parking areas for eight or more vehicles shall be drained through catch basins equipped with oil and grease traps and sediment traps unless the topography of the site prevents their use. [Added 5-9-1988 ATM, Art. 14]

(6) To reduce stormwater discharge and improve the attenuation of pollutants, applicants are required to use stormwater control Best Management Practices (BMPs) and Low Impact Development (LID) techniques in parking lot design (i.e., interior landscaping, vegetated/grassy swales, infiltration planters, permeable pavement, rain gardens, etc.). [Added 11-8-2005 STM, Art. 5]
§ 173-33. Loading requirements.

Adequate off-street loading facilities and space must be provided to service all needs created by new construction, whether through new structures or additions to old ones, and by change of use of existing structures. Facilities shall be so sized and arranged that no trucks need back onto or off of a public way or be parked on a public way while loading, unloading or waiting to do so.
§ 173-34. General regulations.

A. Except for indicators of time and temperature, no sign or part of any sign shall flash, rotate, move or make noise.

B. Signs shall be illuminated internally or by external shielded light directed solely at the sign in such a manner as to prevent glare for motorists and pedestrians, and such that the light source and lenses shall not be visible from any residential district.

C. No sign shall be placed within or projecting over a public way or on public property, except with a permit from the Select Board.

D. No sign shall be illuminated between the hours of 11:00 p.m. and 7:00 a.m. unless indicating time or temperature or an establishment open to the public during those hours.

E. Provisions of this chapter do not limit flags, insignia, legal notices, agricultural, directional or traffic signs erected or required by governmental bodies.

§ 173-35. On-premises signs in business and industrial districts.

Signs whose contents relate exclusively to the premises on which they are located or to products, accommodations, services or activities on those premises shall be allowed as follows:

A. Number of signs.

   (1) Principal signs.
   
      (a) On any one lot, one freestanding sign.
   
      (b) For any one business or other discrete activity, one attached wall sign to each building side having both a public entrance and orientation to a street. [For store groups, however, see Subsection C(3).]
   
   (2) Secondary signs. (For lots with remove secondary access, one secondary freestanding sign so arranged as to be not less than 300 feet measured horizontally from the principal freestanding sign.

B. Height of signs.

   (1) Freestanding signs shall not exceed 18 feet in height.
   
   (2) Any attached sign shall not project above or beyond the limits of the building on which it is viewed.

C. Sign areas.

   173:41
§ 173-35  LITTLETON CODE § 173-37

(1) Principal freestanding signs shall not exceed 50 square feet in area.

(2) Secondary freestanding signs shall not exceed 25 square feet in area.

(3) No group of attached signs on any single face of the building on which they are viewed shall exceed 15% of that exterior surface wall area. No attached sign shall exceed 50 square feet.

D. Window signs. Window signs painted or fastened to window glass and signs immediately inside window glass are subject to the provisions of this chapter. Signs shall not exceed 50% of the glass area on which they are viewed.

E. Business groups. Groups of three or more businesses on a single lot, such as a plaza or shopping center, may, as an alternative to Subsections A(1)(a) and C(1) observe the following: (1) principle freestanding sign of 12 square feet in area identifying the plaza or center name with no more than an additional 12 square foot panel for each business for the purpose of identification. Total aggregate sign area shall not exceed 50 square feet.

§ 173-36. On-premises signs in residential districts.

Signs whose contents relate exclusively to the premises on which they are located or to products, accommodations, services or activities on those premises shall be allowed as follows:

A. Number of signs. On any one lot, one freestanding or attached sign. Agricultural signs are exempt.

B. Size of signs. Freestanding or attached signs shall not exceed three square feet. Signs located on a lot with more than 300 feet of frontage and conforming to the setbacks for principal structures shall not exceed nine square feet. Agricultural signs shall be limited to 50 square feet aggregate total.

C. Signs advertising accessory use of residences or residential lots, including signs pertaining to the lease or sale of such residence of lot, shall not be lighted. Such signs shall not be located in a required side or rear setback.

D. Signs shall be limited to one background color, which shall be natural wood, white or the same color as the principal structure or its trim, and one other color for lettering and designs.

E. Signs shall be limited to name and nature of the activity and its hours of operation and shall not contain slogans or prices.

F. Chimney monograms, house numbers, identification name plaques bearing the name of the occupants and similar decorative devices shall not be considered signs for the purpose of this chapter.

173:42
§ 173-37. Temporary signs.

Temporary signs shall be allowed in addition to permanent signs, in any area without a permit, provided that they are not lighted and comply with the following:

A. Unless otherwise permitted in this section, all temporary signs must comply with the requirements for permanent signs applicable to the premises. Temporary signs shall not exceed 16 square feet on any premises.

B. Signs associated with a construction permit for the purpose of identifying the contractor shall be allowed until the completion of the project, and that the area of the sign be no larger than nine square feet.

C. One real estate sign per lot provided it be no larger than nine square feet and located on the premises to be sold.

D. Temporary signs may advertise sales, special events or changes in the nature of an operations but shall not otherwise be used to advertise a continuing or regularly recurring business operation.

E. If a temporary sign is removed, then replaced within 30 days of its removal, the time allowed for the sign to be in place shall be figured from the date it was first erected, as if it had not been removed.

F. A temporary sign which becomes unsightly or flaps or makes noise for any reason shall be promptly removed or replaced.

§ 173-38. Off-premises signs.

A. Billboards or signs whose content does not relate exclusively to the premises on which they are located or to products, accommodations, services or activities on those premises are not allowed, except as follows: signs whose content is related exclusively to a political campaign or to the activities of religious or charitable organizations.

B. No off-premises sign shall be lighted.

The prohibitions contained in this section shall apply to all signs in all zones, regardless of designation.

A. No sign or advertising device shall be erected or maintained in such a manner as to obstruct or interfere with the free and clear vision on any street or driveway;

B. No attached wall sign shall extend more than 12 inches beyond the building walls or parts thereof, except as otherwise provided in these sign regulations;
§ 173-39  LITTLETON CODE  § 173-42

C. No building or part thereof, such as a gable, roof, or wall, shall be outlined by direct illumination for the purpose of commercial advertising;

D. No sign shall be attached to or be erected or maintained in such a manner as to obstruct any fire escape, window, door, or other building opening used for egress and ingress, ventilation or other fire fighting purposes;

E. No sign shall be attached to public property, i.e. telephone poles, fences, etc., without the express permission of the Select Board;

F. Neon signs are prohibited.

No sign over one square foot shall be erected, enlarged, altered, or replaced without a permit issued by the Building Commissioner. Agricultural signs with a maximum aggregate display area of 10 square feet and are not illuminated shall not require a permit. No permit shall be issued for any sign except in conformance with this chapter.

§ 173-41. Enforcement.

This chapter shall be enforced by the Building Commissioner.

§ 173-42. (Reserved)
§ 173-43. Screening.

A. Screening. All outdoor sales display areas, except roadside stands, and all commercial outdoor recreation must be screened from any adjacent residential use or district by a wall, fence or densely planted trees or shrubs three feet or more in height, or equivalently obscured by natural vegetation.

B. Industrial A screening. In an Industrial A District, trees, shrubbery or grass shall be maintained on a strip not less than 20 feet wide along all public roads bounding the lot, and trees and shrubbery shall be maintained on a strip not less than 50 feet wide along all lot lines adjacent to residential districts, except strips used for entrance drives or entrance walks. All open storage must be adequately shielded or covered by a wall, fence, shrubbery or natural vegetation.

§ 173-44. Corner vision.

No wall, fence, structure, planting or other obstruction to a driver's vision may be permitted at eye level [2 1/2 to eight feet above street grade] within 20 feet from the intersection of street side lines.

§ 173-45. through § 173-48. (Reserved)
§ 173-49. Exterior lighting.

Building or area lighting for any business, commercial, industrial or other nonresidential private use shall be so arranged as to direct the light away from any street and from any premises residentially used or zoned. Such exterior lights shall be mounted and shielded, such that light sources and lenses shall not be visible from any residential district. Luminaries shall be cut off (controlled) type, with the mounting height not to exceed 20 feet. Light overspill shall not create shadowing discernible without instruments on any residentially zoned premises. (NOTE: Sodium-vapor lighting is prohibited by Chapter 119 of the Code.)

§ 173-50. through § 173-51. (Reserved)
§ 173-52. Special permit requirements.

Motor vehicle service stations shall be granted special permits only in conformity with the following:

A. Entrance; exits. No location shall be approved if a vehicular entrance or exit will be so located as to create an unusual hazard. Lanes of entry shall be separated from lanes of egress by not less than 40 feet, shall be clearly distinguished by directional signs or markers and shall be clearly channeled through the use of curbed planting areas of similar devices. Entrances and exits together shall occupy not more than 40% of the lot frontage.

B. Visibility. No entrance or exit shall be located within 10 feet of a side lot line or within 50 feet of the intersection of side lines of intersecting streets. Egressing vehicles shall have at least 400 feet of visibility in each travel direction.

C. Relation to pedestrian flow. No location shall be approved if a vehicular entrance or exit will be so located as to cross a major pedestrian flow, such as on sidewalks servicing churches, schools, recreation areas or compact retail districts.

D. Off-street spaces. There shall be adequate space off-street for not fewer than two cars to await service per filling lane.

E. Service building. No service building shall be located within 40 feet of a street line, and no pump or other dispensing device, movable sign or display nor temporary or permanent storage of merchandise shall be located within 20 feet of a street line.

F. Fuel storage tank. No fuel storage tank shall be located within 10 feet of any lot line.

Customary access uses are permitted as specified in § 173-26B. Uses shall not be considered accessory if they occupy more than 30% of the floor area or more than 50% of the land area of any lot.

§ 173-54. Home occupations.

Customary home occupations, office of professional persons residing on the premises, handicrafts, hobbies or activities of a similar nature are allowed, provided that such activities are carried on by residents of the dwelling, plus not more than one additional employee, and that accessory buildings used for such purposes shall not be placed forward of the rear line of the building.

§ 173-55. Accessory scientific uses.

Uses, whether or not on the same parcel as activities permitted as a matter of right, accessory to activities permitted as a matter of right, which activities are necessary in connection with scientific research or scientific development or related production, may be permitted upon the issuance of a special permit by the special permit granting authority, provided that the special permit granting authority finds that the proposed accessory use does not substantially derogate from the public good.

A. A special permit may be granted for use of a mobile home as a residence during the construction, reconstruction or extensive remodeling of a dwelling on the same lot, subject to the following conditions:

   (1) The permanent septic system and water supply must be in place and usable, and the mobile home must be connected to them.

   (2) The permit shall be limited to a reasonable time for completion of the work and shall not be renewed unless a valid, unavoidable reason for delay of the work can be demonstrated.

B. A special permit may be granted for use of a mobile home as an accessory dwelling on the same lot as an existing dwelling, subject to the following conditions:

   (1) All the requirements of Article XIII, Accessory Dwellings, shall apply.

   (2) The occupant, due to physical handicap, requires special provisions in the dwelling which are impractical to provide otherwise, due to financial hardship or other reasons.
§ 173-56

LITTLETON CODE

§ 173-57

(3) The mobile home shall be connected to an approved water supply and septic system, which may be that of the primary dwelling.

§ 173-57. Accessory business uses at active farms. [Added 2011 ATM, Art. 18]

A. The Town of Littleton finds that in order to protect and preserve the agricultural, horticultural, viticultural or floricultural lands (hereafter "agricultural uses"), to protect and preserve natural resources, and to maintain land in active agricultural uses, it is necessary to enable the owners of said lands that are in active agricultural use to conduct, in addition to any primary or accessory use subject to the protection of M.G.L. c.40A, § 3, par. 1, certain other appropriate accessory business uses to supplement the income from said agricultural uses.

The Planning Board, by special permit, may grant approval for the following accessory business uses at active farms on contiguous farmland parcels in excess of five acres:

• Veterinarians' office.
• Agricultural equipment and supply dealers.
• Custom farm providers.
• Feed milling and delivery.
• Facilities for hosting or staging of revenue-generating events, tours, weddings, and functions which are appropriate in scale to the premises and any surrounding residential area, including the preparation and serving of food and beverages for such events, provided that the facilities are primarily outside or under an open shelter and shall be operated seasonally.
• Small-scale abattoir/meat processing facilities.
• Facilities for the production and sale of farm-related products, such as but not limited to cider, baked goods, butter, wine, cheeses, or ice cream, whether or not the farm is the main source of the raw materials used in the farm products, provided that the facilities and associated parking shall not occupy more than 10% of the total farm area.
• Farm stand restaurants designed and used for the sale of farm crops and livestock grown on farms in the local agricultural area; provided that the facilities and parking for the farm stand restaurant, and the associated farm stand, shall not occupy more than 10% of the total farm area.
• Animal boarding facilities for the boarding of up to 50 animals other than those stabled, raised, or kept onsite in connection with the primary agricultural use.
• Farm implement and similar heavy machinery repair services, such as a welding operation, blacksmith shop, etc. that the farm operator would normally undertake in maintenance of machinery for his/her own farm.

• Subsurface disposal of septic effluent from nearby or adjacent residential or commercial facilities, or municipal waste water treatment facility, provided that the surface of any such area shall be placed under a conservation or agricultural preservation restriction.

B. The Planning Board may set conditions such as hours of operation, number of employees, or other conditions that they deem appropriate when granting a special permit pursuant to this section. In order to maintain agriculture as the primary use for the property, the uses provided for herein (excluding those uses for which a specific maximum is provided above), and any associated parking, shall occupy no more than 5% of the land area of the farm parcel(s). The Planning Board may require that the special permit, including all conditions, be recorded at the Registry of Deeds. The special permit shall recite the circumstances under which the special permit is being granted (e.g. the amount of land area in active agricultural use, the nature of the primary agricultural use, etc.) and shall include a condition requiring that the given circumstances continue to exist.

C. Decision Criteria: Special Permits for accessory business uses at active farms shall be granted only if the Planning Board determines that the criteria of Section 173-7C are met, after consideration of the following:

(1) Roads, water and drainage facilities are existing, or as committed by the applicant to be improved, and their ability to serve this proposal adequately and safely without material deterioration in service to other locations.

(2) Degree of assurance that no planned process or unplanned contingency will result in undue hazard or contamination of air, land, or water resources.

(3) Visual compatibility with the vicinity, including consideration of site arrangement, consistency in architectural scale (or reasonability of departure), retention of existing site features, especially trees, and architectural character.

(4) Degree of threat to environmental resources, including loss of valuable trees and other vegetation, disturbance to habitats, and soil loss through erosion.

(5) Buffering and screening from any nearby uses of different character.

(6) Retaining prime or important agricultural soils in active production.
Specific uses that are prohibited on residentially zoned agricultural lands include:

• Gas stations or retail or wholesale fuel storage or delivery.
• Retail Stores such as drug, department, hardware, and clothing stores.
• Manufacture of non-agricultural products.

D. This section does not preclude a landowner from applying for other permits for Extensive Recreational uses of the agricultural lands that are not incompatible with the seasonal agricultural uses of the agricultural lands.

E. This section is not intended to, and does not, impact the ability of the landowner to undertake any use or construct any structure allowed by right under local zoning. M.G.L. c.40A, § 3, first par. and/or state definitions related to agriculture.

An accessory dwelling that conforms to all of the following requirements shall be permitted as an accessory use in any district in a lawfully existing detached single-family dwelling.

A. There shall not be more than one accessory apartment on a lot.

B. The accessory apartment shall be located inside a detached single-family dwelling (an "interior unit").

C. The accessory apartment shall be designed to maintain the appearance of a single-family dwelling, subject to the following requirements.

   (1) Construction of an accessory apartment shall not create more than a 15% increase in the gross floor area of the single-family dwelling;

   (2) All stairways to an accessory apartment above the first floor shall be enclosed within the exterior walls of the single-family dwelling or on the rear of the dwelling if constructed on an outer wall.

   (3) Where two or more entrances exist on the front facade the single-family dwelling, one entrance shall appear to be the principal entrance and other entrances shall appear to be secondary.

D. The accessory apartment shall not exceed the greater of 40% of the gross floor area of the single-family dwelling or 1,200 square feet, and shall not have more than two bedrooms except by special permit from the Zoning Board of Appeals.

E. The owner(s) of the single-family dwelling in which the accessory apartment is created must continue to occupy one of the units as their primary residence, except for bona fide temporary absences.

F. There shall be one off-street parking space for the accessory apartment in addition to off-street parking spaces required for the principal dwelling. The parking space shall be constructed of materials consistent with the existing driveway and shall have vehicular access to the driveway.

G. Where the driveway is located within 15 feet of the side lot line, at least four feet of the driveway side yard, measured from the side lot line, shall be a buffer zone landscaped with non-invasive plantings.
§ 173-59. Provision for accessory apartments under prior special permits.

An accessory apartment that exists under and conforms to the conditions of a special permit granted by the Zoning Board of Appeals prior to May 1, 2017, shall be deemed a permitted accessory use under this Article XIII.

§ 173-60. Accessory apartments by special permit.

The Zoning Board of Appeals may grant a special permit for an accessory apartment under the following circumstances, provided the Board finds that the proposed apartment will not have a detrimental impact on the neighborhood:

A. An interior unit that exceeds the maximum floor area or limitation on number of bedrooms under § 173-58D above.

B. An accessory apartment in a detached accessory structure (an "exterior unit") if the following criteria are met:

   (1) The apartment complies with the requirements of § 173-58E through G.

   (2) The Board determines that the exterior appearance of the accessory structure is compatible with the principal dwelling on the same lot and with dwellings and accessory structures on adjoining lots.
ARTICLE XIV
Aquifer and Water Resource District

There is established within the Town certain aquifer and water resource protection areas, consisting of aquifers or water resource areas which are delineated on a map entitled "Aquifer and Water Resource District, Town of Littleton," and dated March 2004. This map is hereby made a part of the Littleton Zoning Bylaws and is on file in the Office of the Town Clerk. Within the Aquifer and Water Resource Districts, the requirements of the underlying zoning districts continue to apply, except that uses are prohibited where indicated by "N" in the following schedule and require a special permit where indicated by "P," even where underlying district requirements are more permissive. Where there is no entry in this schedule, the underlying district requirements are controlling.

§ 173-61 ZONING

§ 173-62 Special permits.

A. Special permit granting authority. The special permit granting authority (SPGA) shall be the Planning Board. Such special permit shall be granted if the SPGA determines that the intent of this chapter, as well as the specific criteria of Subsection B of this section, are met. In making such determination, the SPGA shall give consideration to the simplicity, reliability and feasibility of the control measures proposed and the degree of threat to water quality which would result if the control measures were to fail. [Amended 5-8-1989 ATM, Art. 18]

B. Special permit criteria. Special permits for critical resource use shall be granted only if the SPGA determines that, at the boundaries of the premises, the groundwater quality resulting from on-site waste disposal, other on-site operations, natural recharge and background water quality will not fall below the standards established by the Department of Environmental Quality Engineering in Drinking Water Standards of Massachusetts, as most recently revised, or, for parameters where no Department of Environmental Quality Engineering standard exists, below current Environmental Protection Agency criteria as published in the Federal Register or, where no such criteria exists, below standards established by the Board of Health in consultation with the Board of Water Commissioners and, where existing groundwater quality is already below those standards, upon determination that the proposed activity will result in no further degradation.

C. Change of use. Changes in activities resulting in the necessity of obtaining an Environmental Protection Agency identification number as a waste generator, changes resulting in crossing the thresholds of § 173-61 or change of proprietorship for a use which exceeds the thresholds of § 173-61 shall constitute change of use and is allowed only
§ 173-62 LITTLETON CODE § 173-63

under special permit provided under § 173-61 or as provided under § 173-10B for existing nonconforming uses.

D. Submittals. When applying for a special permit for critical resource use, the following shall be submitted to the SPGA in 10 copies by the date of first publication of the public hearing notices:

(1) A complete list of all chemicals, pesticides, fuels and other potentially toxic or hazardous materials to be used or stored on the premises, accompanied by a description of measures proposed to protect from vandalism, corrosion and leakage and to provide for spill prevention and countermeasures.

(2) A description of potentially toxic or hazardous wastes to be generated, indicating storage and disposal method.

(3) Evidence of approval by the Massachusetts Department of Environmental Quality Engineering (DEQE) of any industrial waste treatment or disposal system and of any wastewater treatment system over a capacity of 15,000 gallons per day.

(4) For underground storage of toxic or hazardous materials, evidence of qualified professional supervision of system design and installation.

(5) Analysis by a qualified engineer experienced in ground-water evaluation and/or geohydrology, with an evaluation of the proposed use, including its probable effects or impact on surface and groundwater quality and quantity and natural flow patterns of watercourses.

§ 173-63. Design and operations guidelines.

Within Aquifer and Water Resource Districts, the following design and operations guidelines shall be observed, except for single-family dwellings:

A. Safeguards. Provision shall be made to protect against toxic or hazardous materials discharge or loss through corrosion, accidental damage, spillage or vandalism through such measures as provision for spill control in the vicinity of chemical or fuel delivery points, secure storage areas for toxic or hazardous materials and indoor storage provisions for corrodbile or dissolvable materials.

B. Locations. Where the premises are partially outside of the Aquifer or Water Resource District, such potential pollution sources as on-site waste disposal systems shall, to the degree feasible, be located outside the district.

C. Disposal. Provisions shall be made to assure that any waste containing toxic or hazardous materials disposed on the site is within quantities specified in and in accordance with 310 CMR 30.353, regarding
§ 173-63. § 173-65

insignificant waste, or subsequent equivalent regulation(s) currently in effect.

D. (*) Drainage. Provision shall be made for on-site recharge of stormwater runoff from impervious surfaces unless without degradation to groundwater if a special permit is to be granted for greater than 15% coverage (but less than 30%) in the Auqifer District and for impervious cover greater than 20% (but less than 50%) in the Water Resource District. Such recharge shall include (but not be limited to) infiltration through methods as outlined in the Town of Littleton Low Impact Design/Best Management Practices Manual (latest edition) unless otherwise approved by the Planning Board during site plan review. Where dry wells or leaching basins are used, they shall be preceded by oil, grease and sediment traps. Drainage from loading areas for toxic or hazardous materials shall be separately collected for safe disposal. [Amended 5-5-2007 ATM, Art. 16; 5-5-2008 ATM, Art. 10]

E. Monitoring. Periodic monitoring shall be required by the SPGA, including sampling of wastewater disposed to on-site systems or dry wells and sampling from groundwater monitoring wells to be located and constructed as specified in the special permit, with reports to be submitted to the SPGA, the Board of Health and the Board of Water Commissioners. The costs of monitoring, including sampling and analysis, shall be borne by the owner of the premises.

F. Ice-control chemicals. Where allowed, storage of ice-control chemicals in quantities requiring state reporting shall be authorized only within a weatherproof shelter having an impervious floor and only if all loading and unloading will be done within that shelter, with provisions made for safe cleanup.

§ 173-64. Violations.

Written notice of any violation shall be provided by the Building Inspector to the owner of the premises, specifying the nature of the violation and specifying a time for compliance, including cleanup of any spilled materials. The time allowed shall be reasonable in relation to the public health hazard involved and the difficulty of compliance, but in no event shall more than 30 days be allowed for either compliance or finalization of a plan for longer-term compliance. The costs of achieving compliance shall be borne by the owner of the premises or, if uncollectible from the owner, by the responsible occupant.

§ 173-65. through § 173-67. (Reserved)
§ 173-68. Conversion of dwellings.
The Board of Appeals may grant a special permit for the alteration and conversion of any dwelling located in a residence district into a dwelling designed and intended for occupancy by not more than two families; provided, however, that such building or structure was in existence prior to March 5, 1951; and provided, further, that such building or structure so altered and converted, in the opinion of the Board of Appeals, will be in harmony with and conform to the character and type of residences generally prevalent in the immediate neighborhood.

A building or portion of a building then or formerly in municipal use may be converted from that use to other use, except manufacturing, if authorized on special permit from the Planning Board, subject to the criteria of § 173-7C and subject to the following:

A. Any building additions shall not increase lot coverage by more than 5% of the lot area.

B. Off-street parking must be provided to meet the requirements of § 173-32B.

C. A special permit may not be granted more than two years after the building ceases to be owned by the Town.

§ 173-70. through § 173-71. (Reserved)
ARTICLE XVI
Wetlands and Floodplain Regulations

§ 173-72. Applicability. [Amended 5-7-1990 ATM, Art. 21; 11-8-2010 STM, Art. 10; 5-5-2014 ATM Art. 19]

All land lying below certain control elevation (United States Geological Survey datum) as shown on the Zoning Map shall be considered wetlands, deemed to be subject to seasonal or periodic flooding. And all special flood hazard areas within the Town of Littleton designated as Zone A and AE on the Middlesex County Flood Insurance Rate Map (FIRM) issued by the Federal Emergency Management Agency (FEMA) for the administration of the National Flood Insurance Program, shall be considered floodplains. The map panels of the Middlesex County FIRM that are wholly or partially within the Town of Littleton are panel numbers 25017C0209E, 25017C0216E, 25017C0217E, 25017C0218E, and 25017C0228E, dated June 4, 2010; and 25017C0219F, 25017C0236F, 25017C0237F, 25017C0230F, 25017C0239F, 25017C0241F, and 25017C0243F, dated July 7, 2014. The exact boundaries of the floodplain may be defined by the one-hundred-year base flood elevations shown on the FIRM and further defined by the Middlesex County Flood Insurance Study (FIS) report, dated July 7, 2014. The FIRM and FIS report are incorporated herein by reference and are on file with the Building Inspector. Within Zone A, where the base flood elevation is not provided on the FIRM, the applicant shall obtain any existing flood elevation data, which shall be reviewed by the Building Inspector or the Board of Appeals for its reasonable use toward meeting the requirements of this chapter.

§ 173-73. Uses permitted.

In any area designated wetland or floodplain under § 173-72, the permitted uses and the requirements of the underlying zoning district shall continue to apply, except that the following shall also apply: a special permit by the Board of Appeals is required for any new structure, for additions of 10% or more to the ground-floor area of any building existing at the time of adoption of this section or for repairs or alterations totaling 75% or more of the actual cash value of the structure before initial improvement or, if damaged, before the damage occurred for any construction or development, whether or not falling within the above requirements for a special permit, which in the opinion of the Building Inspector can be presumed hazardous as defined in § 173-74 below.

A. Application for such permit shall be referred to the Conservation Commission for an advisory report, and no decision on such permit shall be taken within 35 days of such referral without receipt of such report.

B. Such permit shall be issued only if it is demonstrated by the applicant that the proposed development will pose no hazard to health or safety, for which demonstration the Board may require that the applicant submit professional hydrologic, sanitary or other studies of the site.
§ 173-73 LITTLETON CODE § 173-74

C. Any other bylaw or regulation to the contrary notwithstanding, no such permit shall be issued for construction in floodplains unless the Board of Appeals shall determine that all utilities are located, constructed or elevated so as to minimize or eliminate flood damage and that methods of disposal for sewage, refuse and other wastes and for providing drainage are adequate to reduce flood hazards, provided that such determination by the Board of Appeals shall not be required in cases where the Planning Board has conducted a similar review and approval under its regulations.

D. In the floodway, as designated on the FIRM, no such permit shall be issued unless certification by a registered professional engineer is provided, demonstrating that the proposed construction will not result in any increase in levels during the occurrence of the one-hundred-year flood. [Amended 11-8-2010, STM, Art. 10]

E. Floodway Data. In Zones A and AE, along watercourses that have not had a regulatory floodway designated, the best available Federal, State, local, or other floodway data shall be used to prohibit encroachments in floodways which would result in any increase in flood levels within the community during the occurrence of the base flood discharge.

F. Base Flood Elevation Data. Base flood elevation data is required for subdivision proposals or other developments greater than 50 lots or 5 acres, whichever is the lesser, within unnumbered A zones.

G. All development in the floodplain, including structural and non-structural activities, whether permitted by right or by special permit must be in compliance with Chapter 131, Section 40 of the Massachusetts General Laws and with the following:
   - Section of the Massachusetts State Building Code which addresses floodplain areas (currently 780 CMR);
   - Wetlands Protection Regulations, Department of Environmental Protection (DEP) (currently 310 CMR 10.00);
   - Inland Wetlands Restriction, DEP (currently 310 CMR 13.00);
   - Minimum Requirements for the Subsurface Disposal of Sanitary Sewage, DEP (currently 310 CMR 15, Title 5);

Any variances from the provisions and requirements of the above referenced state regulations may only be granted in accordance with the required variance procedures of these state regulations. [Added 5-7-1990 ATM, Art. 21; amended 11-8-2010 STM, Art. 10]

§ 173-74. Requirements. [Amended 11-8-2010 STM, Art. 10]

Without limiting the generality of the foregoing, the following are presumed to be hazardous to the health or safety within wetlands and are among the criteria for the Board of Appeals’ determination for floodplains as required under § 173-73.B and § 173-73.C above:
A. Floor level of structures for human occupancy established at an elevation lower than the control elevations defining wetlands or base flood elevations as designated on the FIRM.

B. Individual sewage disposal systems subject to inundation by flooding to the control elevations defining wetlands. Leach field drain tiles shall be not less than 100 horizontal feet inland from the control elevation defining wetlands or base flood elevations as designated on the FIRM.

C. Methods of filling or excavation subject to displacement by floodwaters.

D. Construction, use and/or change of grade which will obstruct or divert flood flow, substantially reduce natural floodwater storage capacity or increase stormwater runoff velocity so that water levels on other land are substantially raised or so that danger from flooding is increased.

E. Failure to so design and secure any structure that it will not be floated off, battered off or swept away by flooding to the control elevations defining wetlands or base flood elevations as designated on the FIRM.

F. Lack of means of egress entirely above the control elevations defining wetlands or base flood elevations as designated on the FIRM.

G. Failure to protect against gas, electric, fuel or other utilities breaking, leaking, short-circuiting, grounding or igniting in the event of flooding to the control elevations defining wetlands or base flood elevations as designated on the FIRM.

H. Water supply systems subject to interruption or contamination by flooding to the control elevations defining wetlands or base flood elevations as designated on the FIRM.

§ 173-75. Notification of watercourse alteration. [Added 11-8-2010 STM, Art. 8]

In a riverine situation, the Building Commissioner or Board of Appeals shall notify the following of any alteration or relocation of a watercourse:

- Adjacent Communities
- NFIP State Coordinator
  Massachusetts Department of Conservation and Recreation
  251 Causeway Street, Suite 600-700
  Boston, MA 02114-2104
- NFIP Program Specialist
  Federal Emergency Management Agency, Region I
  99 High Street, 6th Floor
  Boston, MA 02110
§ 173-76. Decision. [Amended 11-8-2010 STM, Art. 8]
Such permit shall be issued only upon confirmation that the procedural requirements of the Wetlands Act of the Massachusetts General Laws (MGL C. 131, §§ 40 and 40A) will be met.

§ 173-77. (Reserved)
§ 173-78. General.

A. No activity shall be permitted in any district unless it can be demonstrated that its operation will be so conducted that the following requirements will be met. Nothing in this article shall be construed to permit noise in excess of that allowed by any state or federal regulation.

B. Exceptions. This regulation shall not apply to the following:
   1. Any activity, except construction, on premises used exclusively for residential and customary accessory purposes.
   2. Any noise produced by equipment used exclusively in the maintenance or repair of buildings or grounds, provided that such equipment is rated at not more than 15 horsepower.
   3. Any noise produced by a registered motor vehicle, provided that such vehicle is equipped with all noise suppression devices required for legal operation under such registration by the laws of the commonwealth.
   4. Human or animal noises unless mechanically or electronically amplified.
   5. Farm equipment.
   6. Any fire or burglar alarm or other emergency signaling device, provided that such device is arranged to shut off automatically after not more than 30 minutes of operation.
   7. Construction equipment between the hours of 7:00 a.m. and 7:00 p.m. only.
   8. Parades, fairs or outdoor entertainment between the hours of 7:00 a.m. and 11:00 p.m. only, provided that a permit for such activity has been granted by the Select Board and that said permit is for not more than 10 days.
   9. Religious services conducted by an organization which qualifies under the laws of the commonwealth as a tax-exempt religious group.

§ 173-79. Special conditions.

Exceptions to this article may be made under the following conditions:

A. A permit to operate construction equipment outside the hours specified above and in excess of the noise levels specified may be issued upon determination of reasonable necessity by the senior police officer on
§ 173-79  LITTLETON CODE  § 173-80

duty in Town at the time. Such permit shall be valid for not more than 24 hours from the time of issue.

B. Emergency repair due to flood, fire or other catastrophe may be carried out prior to a permit being issued if such work is necessary for the general welfare or to avoid further catastrophe. Such work must cease, however, upon demand of the enforcing authority.

C. The enforcing authority may delay enforcement of any provisions of this article for such reasonable time as may be required to modify any equipment so as to conform to these regulations.

D. A special permit may be granted for exceptions for the operation of equipment which is necessary to the conduct of a business if there is no technically feasible way to perform the operation with equipment which complies with the regulations.

A. Noise levels specified herein shall be sound levels in decibels on the A-scale (dBA) referred to 0.0002 dynes per square centimeter as measured by a sound-level meter manufactured in conformance with the American National Standards Institute Standard S 1.4-1971, Type 2.

B. Readings shall be taken using the fast-response setting of the meter, except that, when the fluctuations are so rapid as to make reading difficult, the slow-response setting may be used.

C. The measured sound level shall be the average readings for fluctuations less than six decibels and three decibels less than the maximum for fluctuations greater than six decibels. In taking these readings, infrequent peaks shall be ignored, except in the case of impulsive or sporadic noise of which they are a significant component.

D. For the purposes of this section, "day" shall be defined as the hours between 7:00 a.m. and 9:00 p.m. on all days, except Sundays and legal holidays, and between 12:00 noon and 9:00 p.m. on Sundays and legal holidays. Night requirements shall apply at all other times.

E. The maximum allowable sound levels for continuous noise in each district shall be as follows:

<table>
<thead>
<tr>
<th>District</th>
<th>Day (decibels)</th>
<th>Night (decibels)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Residential</td>
<td>50</td>
<td>40</td>
</tr>
<tr>
<td>Business</td>
<td>55</td>
<td>45</td>
</tr>
<tr>
<td>Industrial</td>
<td>65</td>
<td>50</td>
</tr>
</tbody>
</table>

173:70
F. The maximum allowable sound levels for noise other than continuous shall be related to the allowable levels for continuous noise as follows:

<table>
<thead>
<tr>
<th>Type</th>
<th>Decibels</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dominant tone</td>
<td>5 less</td>
</tr>
<tr>
<td>Impulsive</td>
<td>5 less</td>
</tr>
<tr>
<td>Sporadic</td>
<td>10 more</td>
</tr>
</tbody>
</table>

G. Notwithstanding any other provision of this article, it shall be unlawful to produce any noise other than sporadic noise in excess of 90 decibels at any property line or street line.

§ 173-81. Location of measurements.

Noise measurements shall be made at the property line or street line.

A. Noise requirements at any property or street line shall be those of the zoning district in which the property line lies, regardless of the location of the source of the noise.

B. When a property line is also a zoning district boundary, the requirements shall be those of the district on the opposite side of the line from the source of the noise. When a street line is the zoning district boundary and the noise source is in the less restrictive zone, the noise level shall be measured at the street line of the property in the more restrictive zone.

§ 173-82. Types of noise.

For the purposes of this article, types of noise are defined as follows:

CONTINUOUS NOISE — Noise which has no noticeably dominant frequency and which does not vary in sound level enough to be defined as sporadic or impulsive noise.

DOMINANT TONE NOISE — Noise which has a single dominant frequency which, in the opinion of the enforcing authority, is more objectionable than a continuous noise of the same sound level.

IMPULSIVE NOISE — Noise of repetitive character which varies more than five decibels more frequently than sporadic noise.

SPORADIC NOISE — Noise which persists one minute or less and occurs less than five times in any fifteen-minute period and less than 10 times in any one-hour period.

The Building Inspector may require that an applicant for a facility whose future compliance with performance standards in this chapter is questionable furnish evidence of probable compliance, whether by example of similar facilities or by engineering analysis. Issuance of a permit on the
basis of that evidence shall certify the Town’s acceptance of the conformity of the basic structure and equipment, but future equipment changes and operating procedures must be such as to also comply with these standards.

§ 173-84. through § 173-85. (Reserved)
ARTICLE XVIII
Major Commercial or Industrial Use
[Added 5-9-1988 ATM, Art. 12]

§ 173-86. Classification.

Industrial or commercial activities are to be classified as "major" if one or more of the following thresholds will be exceeded on the aggregate for all activities on the lot:

A. More than 30,000 square feet gross floor area in retail use, or more than 50,000 square feet gross floor area in any other nonresidential use or combination of nonresidential uses.

B. Sewage disposal of more than 10,000 gallons per day, based upon sewage flow estimates in 310 CMR 15.00, Title 5 of the State Environmental Code.

C. More than 1,000 estimated motor vehicles trip ends [one (1) arrival or one departure] for an average business day, based upon either the Institute of Traffic Engineers Trip Generation or an engineering study of the activity.

§ 173-87. Use regulations.

A. Major commercial or industrial use may be authorized only at locations where the type of use would, if not categorized "major," be permitted by right or could be allowed on special permit. A special permit for major commercial or industrial use is to be acted on in lieu of special permits otherwise required under § 173-26, but not in lieu of others, such as those required under Article XIV, Aquifer and Water Resource District. Any special permit requirements under this section may be waived by the special permit granting authority, if a special permit required under another section of this chapter regulates the same characteristics of the activity.

B. Construction of facilities which could accommodate a major commercial or industrial use, whether through new construction or expansion or alteration of existing facilities, requires a special permit under § 173-7 unless such change is consistent with a previously authorized special permit.

C. Any commercial or industrial use which qualifies as a major commercial or industrial use, as defined under § 173-86, and is equal to or more than 60,000 square feet gross floor area in retail use, shall require concept plan approval, as defined under § 173-2, prior to being acted upon for special permit approval. Town Meeting concept plan approval may be made with conditions or limitations. Special permit approval shall not be given by the Planning Board unless the proposal is determined to be consistent with the approved concept plan and the
§ 173-87 LITTLETON CODE § 173-88

remaining requirements of Article XVIII. [Added 5-5-2007 ATM, Art. 14]

§ 173-88. Special permit for major commercial and industrial uses.

A. Submittals. In applying for a special permit for major commercial or industrial uses, the following materials shall be submitted, unless omissions of materials deemed unnecessary are authorized by the special permit granting authority prior to application:

(1) A site plan meeting the requirements of Article IV, Site Plan Requirements.

(2) Building floor plans, architectural elevations, and if important for understanding, sections through the building and site (all of which may be at a preliminary level of development).

(3) If more than 1,000 trip ends are projected, analysis of sight distances in both directions, and capacity and hazards analysis of each ingress and egress point and each intersection where this development is likely to increase traffic by 10% or more on any of the intersecting ways.

(4) If more than 10,000 gallons per day of sewage disposal are projected, analysis of impact on ground- and surface water quality.

(5) A plan as recommended by the water quality engineer, indicating location of appropriate monitoring wells, if required by the special permit granting authority.

B. Decision considerations. Special permits for major commercial or industrial uses shall be granted only if the special permit granting authority determines that the criteria of § 173-7C are met, after consideration of the following, among other things:

(1) Roads, water, and drainage facilities as existing, or as committed by the Town or the applicant to be improved, and their ability to serve this proposal adequately and safely without material deterioration in service to other locations.

(2) Degree of assurance that no planned process or unplanned contingency will result in undue hazard or contamination of air, land, or water resources.

(3) Visual compatibility with the vicinity, including consideration of site arrangement, consistency in architectural scale (or reasonability of departure), retention of existing site features, especially trees, and architectural character.

(4) Degree of threat to environmental resources, including loss of valuable trees and other vegetation, disturbance to habitats, and soil loss through erosion.
§ 173-88. **ZONING**

(5) Buffering and screening from any nearby uses of different character.

C. Major projects. **[Added 5-5-2007 ATM, Art. 14]**

(1) A schematic development plan, indicating the location of the boundaries of the lot, buildings, roads, drives, parking, reserved open space, wells, on-site disposal facilities, drainage system, topography and grading, areas of retained vegetation and planting areas.

(2) Floor plans and architectural elevations of all planned structures and any existing structures.

(3) Materials indicating the proposed maximum number of square feet of gross floor area for each category of land use (See § 218-13, Schedule of Use Regulations); analysis supporting the demand for such use, indicating the anticipated market area and the anticipated Littleton market share; methods of water supply and sewage disposal; time schedule for construction of units and improvements; service improvements proposed to be at the developer's expense and those anticipated at the Town's expense; and means, if any, of providing for design control.

(4) Analysis of the consequence of the proposed development, evaluating the following impacts at a level of detail appropriate to the scale of the development proposed:

   a. Natural environment: groundwater and surface water quality, groundwater level, stream flow, erosion and siltation prevention measures, vegetation removal (especially unusual species and mature trees) and wildlife habitats.

   b. Public services: traffic safety and congestion, need for water system improvements, need for additional public recreational facilities and need for additional school facilities.

   c. Economics: municipal costs and revenues, local business activity and local jobs.

   d. Visual environment: visibility of buildings and parking and visual consistency with existing development in the area.

§ 173-89. **Master planned developments.**

A. A master plan for development of premises comprising 25 or more acres may, at the owner's option, be submitted for approval as a major commercial or industrial use. Following approval of such a plan, individual proposals on lots within those premises will not be subject to review as major commercial or industrial uses, regardless of relationship to the thresholds of § 173-86, provided that the Planning
Board, in performing site plan review, determines that the proposal is consistent with the approved master plan, which means:

1. No significant departure from locations as shown on the master plan;
2. No increase above maximum floor areas by category of use stipulated in the master plan; and
3. Off-site improvements being made as scheduled and financed as proposed.

B. Submittals. In applying for master plan approval, the following materials shall be submitted.

1. A schematic development plan, indicating boundaries of the premises, topography, wetlands and water bodies, roads, pedestrian circulation, and utilities, and illustrative building locations.
2. A site landscaping plan, indicating buffer areas to be maintained in natural landscaping; areas to be kept free of parking, storage or service yards; areas to be kept free of buildings; and proposed landscaping.
3. Materials indicating the maximum floor area to be developed in each category of use in the entire development; the time schedule for development; off-site service improvements to roads, utilities or drainage necessitated by the completed development; and proposed means by which those improvements are to be carried out and financed.
4. Traffic impact analysis, including sight distance analysis at all intersections of proposed roads or driveways with existing roads, capacity analysis at each intersection substantially impacted by project traffic and review of potential hazards owing to inadequate street width, alignment or visibility on servicing roads.
5. Water quality impact analysis, including impacts on any affected public or private groundwater supplies and on nutrient loading of impacted water bodies.
6. Water supply impact analysis, including adequacy of supply, distribution, and storage.

C. Decision considerations. Decision considerations for approval of a development master plan shall be those of § 173-88B.

D. Expiration. Submittal of a definitive subdivision plan, arm’s length conveyance of one or more lots, or completed application for a building permit for a principal building shall constitute substantial use of a special permit for a development master plan, precluding its expiration under § 173-7E.
§ 173-90.

ZONING

§ 173-90.

§ 173-90. through § 173-92. (Reserved)
§ 173-93. Purpose.

The purpose of this article is to encourage the preservation of significant parcels of agricultural land and open space, while at the same time accommodating the need for housing in Littleton; to adapt to changes in the nature of housing and the way in which housing is used; while preserving the current overall density and rural character of the Town.

§ 173-94. Special permit.

A. The Littleton Planning Board is hereby designated the Special Permit Granting Authority (SPGA) to grant Special Permits for development under the provisions of this article.

B. The SPGA may grant a Special permit for development of a qualified parcel of land in a unified manner as an Open Space Development.

C. A Special Permit may be granted only if the SPGA determines that the open space is no less beneficial to the Town than a conventional subdivision of the same property. The SPGA may grant a special permit for an Open Space Development only upon finding that such use is in harmony with the general purpose and intent of the Zoning Bylaw and that the proposal meets the specific provisions set forth under § 173-100 of the Zoning Bylaw. In granting the special permit, the SPGA may also adopt conditions, safeguards and limitations concerning the use of the property associated therewith, including limitations on open space use.

§ 173-95. Applicability. [Added 5-4-1998 ATM, Art. 32]

A. All residential projects involving the subdivision of 10 acres or more of land shall submit application for Open Space Development and conform to the requirements of this section.

B. The Planning Board shall make a determination for all projects involving the subdivision of 10 acres or more of land pursuant to § 173-96. The Planning Board will either approve the Open Space development concept or waive the application to allow conventional subdivision concept.

§ 173-96. Procedure.

Applications for an Open Space Development Special Permit shall be submitted in accordance with the submission requirements specified below.

A. Preapplication Review. Before submitting a formal application for a Special Permit under this article, the applicant is encouraged to meet
with the Planning Board, Board of Health, and Conservation Commission to present the general concept of the development, and hear the concerns of the Town officials that should be considered in the design of the development.

B. Subdivision Plan. Granting of a Special Permit under the provisions of this article provides only that the open space conforms to the zoning bylaw. Subdivision approval is also required in accordance with the Subdivision Control Law and the Planning Board Subdivision Regulations for the laying out of ways, installation of municipal services, and the creation of lots within the Open Space Development. If the development is undivided, or divided in such a way as not to require subdivision approval under the Subdivision Control Law, the development shall be subject to all of the design requirements of the Planning Board Subdivision Regulations as if each structure were on a separate lot, and determination of compliance with these requirements shall be part of the site plan review.

C. Site Plan Review. Site Plan Review by the Planning Board is an integral part of the Open Space Development approval process and shall be conducted prior to any construction or grading on the property.

D. Request for Determination. A Request for Determination shall be submitted to the Littleton Conservation Commission prior to or concurrent with submittal of the Special Permit Application to the SPGA.

E. Plan Review Submission. The Applicant shall provide the SPGA with 10 sets of a completed application, meeting the submission requirements of § 173-98. The SPGA shall submit such application to the Board of Health, Conservation Commission, Select Board, Fire Department, Police Department, Tree Warden, and Highway Department for review and comment. Each board shall have 35 days after receipt of the applications to complete such review and comment. [Amended 5-6-1991 ATM, Art. 25]

§ 173-97. (Reserved)

§ 173-98. Submission requirements. [Amended 5-6-2013 ATM, Art. 20]

A. A development statement describing the development program, including number of units, type of units, floor area, number of bedrooms, ground coverage, and areas of residential development and common open space as percentages of the total open space area.

B. A preliminary environmental analysis as defined by the Planning Board Subdivision Rules and Regulations for a Preliminary Subdivision.

C. Development plans including the following:
§ 173-98  ZONING  § 173-98

(1) Overall site plan showing locus, topography in ten foot or three meter contours from USGS maps, all structures to be built or retained, all roads, driveways, parking areas, paths and trails, stone walls, sidewalks, community facilities serving the development, and common open spaces, as well as any other information that would be useful to illustrate the proposal.

(2) A "Density Yield Plan" sketch (at a scale of no less than one inches equals 100 feet) showing how development of the parcel would be achieved by a conventional subdivision plan, in accordance with all applicable land use regulations, to determine the maximum allowable density under this Special Permit.

(3) Drawings illustrating the design of buildings and clusters of buildings, and special features of the development.

(4) Perspective drawings illustrating views from existing public roads abutting the site after the completion of development.

(5) Typical elevation of proposed structures at a scale of 1/8 inch equals one foot.

(6) Typical floor plans at a scale of 1/4 inch equals one foot.

(7) Detailed plans, at a scale of one inch equals 40 feet, of all vehicular entrances to the site, all parking areas and access lanes, and community center sites.

(8) Conceptual plans for treatment and disposal of sanitary sewage, including locations and sizes of leaching fields, and reports of subsurface investigations of groundwater and soil conditions in proposed leaching areas.

(9) General analysis of the effect of the development on surface water flow to offsite or nearby wetlands.

(10) Plans for water supply and distribution sufficient to show the source of water, location and size of storage and distribution facilities, and provisions for fire protection.

D. Planned use of and access to open space.

E. Marketing Program including anticipated price schedule of units, target market sectors, and anticipating timing of development and sales. Market studies prepared by outside consultants are strongly recommended, but not required.

F. Construction schedule, including staging program if applicable, with estimated start and finish dates of each stage, anticipated completion date of community facilities serving the development, and planned completion date of entire development.
§ 173-98  LITTLETON CODE  § 173-100

G. Management program outlining the community organization, if any, and the transition procedure from developer management to community association management.

H. Development team qualifications, including names, addresses and resumes of the development company, development managers, architects, engineers, landscape architects, land planners, other consultants and participants, and all general partners. Resumes must include lists of all developments in progress or completed within five years by each participant.

I. Financial program, including names and addresses of participating financial institutions, a description of the type of sources of equity funding, and bank references for the developers and general partners.

J. A list of all property owners within the Open Space Development tract, and proof of site control by the developer. Proof of site control may include deeds, option agreements, purchase and sale agreements, development partnership agreements, or other documents that establish the right of the developer to plan and develop the property if granted an Open Space Development Special Permit.

§ 173-99. (Reserved)

§ 173-100. Decision criteria.

A. In an Open Space Development, dwellings and accessory buildings should be arranged in groups that do not detract from the ecological and visual qualities of the environment, and are harmonious with the existing neighborhood. The review shall consider whether the size of the planned open space is such that preservation of desirable open space of the vicinity is maximized.

B. Prior to the granting of a Special Permit under this article, the developer shall execute and deliver to the SPGA a binding agreement, which may state that it is contingent on the granting of the permit, to convey and restrict the open space in accordance with the terms of the Special Permit.

C. The Planning Board may approve or approve with conditions, a Special Permit for Open Space Development, provided that the Board determines that the plan complies with all relevant requirements of the Zoning Bylaw, and is on balance no less beneficial to the Town than the development likely without such approval, taking into consideration the following, among other concerns.

(1) Preservation of natural resources, especially in relatively large-scale contiguous areas.

(2) Protection of visual character by having open spaces which are visible from major roads.
§ 173-100  ZONING  § 173-104

(3) Reduction in length of publicly maintained roads and utilities per dwelling unit served.

(4) Location of development on sites best suited for such and avoiding environmentally fragile locations.

(5) Protection of major street appearance and capacity by avoiding development close to or egressing directly onto such streets.

(6) Contribution to meeting housing need.

(7) Protection of water resources through careful location of potential sources of contamination.

A. Following the submittal of an application for a Special Permit under this Article, the developer shall not perform or permit to be performed any cutting of trees on the site or any excavation other than test pits prior to the SPGA’s final action. Any test pits so dug or existing prior to the application, which are located in the proposed open space, shall be filled to the preexisting grade prior to the granting of the Special Permit. Failure to fulfill this requirement shall be deemed grounds for denial of the Special Permit.

B. Within Aquifer or Water Resource Districts, wastewater disposal facilities shall not serve more than one dwelling unit per 40,000 square feet land area of the portion of the development within such districts.

§ 173-102. Allowed uses.

A. Units shall be single-family detached.

B. Community recreation facilities serving the development.

C. Offices and maintenance facilities for the open space community association and its management organization.

D. Construction offices and sales offices, for the open space only, until the last approved unit is initially sold.

E. Normally acceptable accessory uses and facilities incidental to the principal uses.

§ 173-103. (Reserved)

§ 173-104. Density calculation. [Amended 5-6-2013 ATM, Art. 20]

A. Except as modified by Subsection B below, the maximum number of dwelling units in an Open Space Development shall be calculated via a Density Yield Plan. A Density Yield Plan shall show the number of building lots that can be developed by right in a conventional subdivision under the zoning requirements of the Zoning By-Law (other
than the Special Permit provisions under this Article XIX, Open Space Development) and all applicable land use regulations in the district (including wetlands protection), and complying with the Subdivision Rules and Regulations, as demonstrated by a preliminary subdivision density yield plan. The applicant must further certify that each lot identified on the Density Yield Plan can support the placement of an on-lot septic system for a four bedroom residential dwelling, as evidenced by soils and percolation tests, consistent with Title 5. Such Density Yield Plan shall be submitted with the Open Space Development special permit application and shall be subject to the review and approval of the Planning Board. The applicant is encouraged to submit such material to the Planning Board office early in the development process, prior to submittal of a completed application, for verification and acceptance of the proposed development density.

B. The number of dwelling units that may be constructed in an Open Space Development may be increased by the Planning Board if it finds that the developer has incorporated into the Open Space Development significant areas of scenic woodland or agricultural lands along public road frontage that may otherwise have been developed into "Approval Not Required" (ANR) lots prior to the submittal of the Open Space Development, and if the Planning Board finds that the proposed Open Space Development protects this significant roadway frontage in the open space to be protected in perpetuity under the provisions of the Open Space Development bylaw. The number of dwelling units to be added to the calculation in Subsection A shall not exceed two times the number of ANR lots that could have been developed prior to the submittal of the Open Space Development, but that are instead included in the protected open space area.

§ 173-105. (Reserved)

§ 173-106. Minimum site size.

The site must be of a size, as determined under Section 173-104, to support a minimum of three residential units.

§ 173-107. (Reserved)

§ 173-108. Dimensional requirements.

A. Height. The maximum allowed height of any building or structure within an Open Space Development shall be 32 feet, as defined in the zoning bylaw definitions, but the height at any point shall not be more than 1/2 of the horizontal distance from any boundary of the open space or of any preexisting public way.

B. Yards. No minimum lot area, frontage, or yard requirements apply within an Open Space Development, except that no building shall be
erected within 40 feet from any boundary lines of the open space or of any preexisting public way.

C. Coverage. Total impervious area, including buildings, parking and other paved areas, shall not exceed 30% of the area of the Open Space Development tract. More severe standards may apply in Aquifer or Water Resource Districts as defined in other articles of this chapter.

§ 173-109. (Reserved)

An Open Space Development tract may include contiguous parcels of land separately owned by different persons or entities who have agreed that the entire tract shall be subject to all of the provisions and stipulations of the Special Permit as if it were a single development.

§ 173-111. (Reserved)

§ 173-112. Open space.

A. Reserved open space shall be defined by deed, and placed under permanent conservation restriction. Open space shall either be conveyed to the Town and accepted by it for park or open space use; conveyed to a nonprofit organization the principal purpose of which is the conservation of open space, or conveyed to a corporation or land trust owned by the owners of the lots or residential units within the development, which corporation or land trust shall have lien authority to collect dues from its owners.

B. Provisions shall be made in the open space trust arrangements to allow and encourage the use of open space for active agriculture, forestry, or passive recreation.

A. All roads, except driveways, within an Open Space Development shall be designed and constructed to Planning Board standards for subdivision streets.

B. Buildings in the Open Space Development may be grouped around a common driveway and parking area, provided the SPGA determines that the design of the driveway and parking area provides safe and adequate access to the dwellings.

§ 173-114. Utilities.

All utility services shall be installed below ground throughout the development, and within the street rights-of-way where feasible.

§ 173-115. (Reserved)
§ 173-116. Limitations on further division.

Land shown on a plan for which a permit is granted under this article may not be further divided and a notation to this effect shall be shown on the plan and shall be a condition of any approvals granted.

§ 173-117. Revision of special permit.

A. Subsequent to issuance of a Special Permit and approval of a Definitive Subdivision Plan, minor revisions may be made from time to time in accordance with applicable law, bylaws, and regulations, but the open space approved under such Special Permit shall otherwise be in accordance with the approved Special Permit.

B. The developer shall notify the SPGA in advance of any such revision, which shall not be effective until approved by vote of the SPGA. If the SPGA determines such revisions not to be minor, it shall order that an application for a revised Special Permit be filed, and a public hearing be held as required for an original application.

§ 173-118. Other standards applicable.

A. This article does not waive any development regulations or procedures that would be applied to a conventional subdivision, except those that are specifically defined in this article. M1 overlay zoning districts, such as Aquifer Protection, Floodplain, and Wetlands, shall apply to parcels developed under this article.

B. The Planning Board may waive any of its subdivision regulations that may be waived under the Subdivision Control Law. Variances from this article may be granted only by the Board of Appeals under the provisions of M.G.L., Chapter 40A.

§ 173-119. through § 173-124. (Reserved)
§ 173-125  ZONING  § 173-126

ARTICLE XX
Shared Residential Driveways
[Added 5-3-1993 ATM, Art. 23]

A. No driveway which serves three or more residential building lots of any type, may lie on a corridor of land or land area having a width of less than 35 feet.
B. This article shall apply only to driveways constructed after May 3, 1993 and to lawfully existing driveways changed after that date to connect with or serve one or more additional lots.
C. It is the intent to permit adjoining lots to share a driveway, the shared part of which is subject to precautions to ensure that the driveway will be maintained and remain useful for both ordinary and emergency access under all weather conditions, and to ensure that a driveway will not be used as a substitute for a street or as a substitute for mandatory access frontage. After May 3, 1993, a driveway may be constructed or extended to serve more than two lots only in accordance with a special permit authorized by the Planning Board, subject to all applicable provisions of this Bylaw.

§ 173-126. Special permit requirements.
The following are minimum requirements for shared driveways. The SPGA may impose higher design and construction standards if in its opinion the number of lots or other conditions affecting the interest of the Town requires them.
A. The driveway shall lie entirely within the lots being served.
B. A shared driveway shall be considered satisfactory only if (1) it has been constructed in accordance with the provisions of the special permit; and (2) there is a recorded clear provision for maintenance and snow removal; running with the land.
C. A driveway shall not be used to provide the lot access frontage required by this Bylaw or by the Subdivision Control Law.
D. Where the access to structures or uses provided by the driveway is substantially different than that which would be provided through required lot frontages, the special permit shall not be issued unless the Planning Board finds that the proposed shared driveway and its location are in the public interest.
E. Where it is in the public interest, the special permit granting authority may require the owners to name the shared driveway and provide a number for each dwelling served by it. In the event that a sign is installed, it shall be subject to the approval of the SPGA.
§ 173-126  LITTLETON CODE  § 173-127

F. The Planning Board shall submit a copy of the special permit and approved plan to the Building Commissioner. No building permit shall issue until receipt of the special permit and plan.

G. The special permit may require inspections at certain points in the construction by an agent authorized by the Planning Board.

§ 173-127. Design criteria.
A. Grades on shared driveways constructed or extended after May 3, 1993 shall not exceed 10%.

B. The minimum width of the shared driveway shall be 16 feet. [Amended 5-8-1995 ATM, Art. 33]

C. The shared driveway shall be constructed of materials resistant to erosion and frost heaving and sufficient to support an axle load of 10 tons under all weather conditions. The shared driveway shall be paved with a three inch minimum thickness layer of bituminous concrete. [Amended 5-8-1995 ATM, Art. 33]

D. Turnouts shall be provided along the shared driveways at intervals of 300 feet. The turnout shall be eight feet wide and 25 feet long.

E. All shared driveways shall be provided with provisions for drainage sufficient to prevent deterioration of the driveway and to prevent any erosion, flooding, or other problems on any property beyond that of the owners of the driveways including the street which it intersects.

F. The SPGA shall require that utilities to the lots be located directly adjacent to or within the shared driveway. [Amended 5-8-1995 ATM, Art. 33]

G. All curves shall be designed to accommodate a vehicle with fifty-foot outside turning radius.

H. Each branch from a shared driveway shall be designed such that a twenty-one-foot wheelbase fire truck or other emergency vehicle can safely enter and exit the branch.

I. At the end of the shared driveway, a turnaround shall be constructed with a seventy-five-foot minimum turning radius. [Added 5-8-1995 ATM, Art. 33]

J. The developer shall post a cash bond to cover the cost of the construction of the shared driveway. [Added 5-8-1995 ATM, Art. 33]

K. Adequate fire protection shall be provided to the satisfaction of the Planning Board. [Added 5-8-1995 ATM, Art. 33]

L. The length of a shared residential driveway shall not exceed 750 feet. This length shall be measured from the sideline of the public way on
which the lots have frontage to the end of the turnaround. [Added 5-8-1995 ATM, Art. 33]
§ 173-128 ZONING § 173-129

ARTICLE XXI
Wireless Telecommunications Towers and Facilities
[Added 2-10-1997 STM, Art. 3]

§ 173-128. Purpose and goals.
A. The purpose of this bylaw is to establish general guidelines for the siting of wireless telecommunication towers and facilities. The goals of this bylaw are to (1) encourage the location of towers on municipal land or industrially zoned land and minimize the total number of towers throughout the community; (2) require the co-location of new and existing tower sites; (3) encourage users of towers and facilities to locate them, to the extent possible, in areas where the adverse impact on the community is minimal; (4) encourage users of towers and facilities to configure them in a way that minimizes the adverse visual impact of towers and facilities, and in furtherance thereof, due to the nature of two divided highways intersecting within the Town, to locate the towers to the extent possible in close proximity to the divided highways; (5) enhance the ability of the providers of telecommunications services to provide such services to the community effectively and efficiently; and (6) to make available all wireless telecommunication tower locations to local municipal agencies.

B. A wireless telecommunications tower and facilities may be located in the Town of Littleton upon the granting of a Special Permit from the Planning Board in accordance with the requirements set forth herein. Granting of a Special Permit will be required prior to the submission of a site plan.

C. The following types of wireless communications towers are exempt from this by-law:

(1) Amateur radio towers used in accordance with the terms of any amateur radio service license issued by the Federal Communications Commission, provided that (1) the tower is not used or licensed for any commercial purpose; and (2) the tower must be removed upon loss or termination of said FCC License.

D. If the Planning Board determines that independent review of the special permit is required, the Board will require the applicant to pay a review fee consisting of reasonable costs to be incurred by the Board for the employment of outside consultants pursuant to Planning Board rules as authorized by G.L. c. 44, § 53G.

§ 173-129. Special permit.

A. Approval. The Littleton Planning Board is hereby designated the Special Permit Granting Authority (SPGA) to grant Special Permits for wireless telecommunications towers and facilities. A Special Permit shall be granted by the Planning Board in accordance with the
§ 173-129 LITTLETON CODE § 173-131

Massachusetts General Laws, the provisions of this bylaw relative to the Special Permit and §§ 173-128 through 173-133, inclusive.

B. Expiration. The Special Permit granted under this Bylaw shall expire within five years of the date of issuance of the permit.

C. Submittal. As part of any application for a special permit, applicants shall submit:

(1) Reports prepared by one or more professional engineers, which shall:

(a) Describe the tower and the technical, economic and other reasons for the tower design, and the need for the tower at the proposed location;

(b) Demonstrate that the tower complies with all applicable standards of the Federal and State Governments;

(c) Describe the capacity of the tower including the number and type of antennae that it can accommodate and the basis for the calculation of capacity;

(d) Describe the wireless telecommunications provider’s master antenna plan, including detailed maps, showing the precise locations, characteristics of all antennas and towers and indicating coverage areas for current and future antennas and towers;

(e) Demonstrate that the tower and facilities comply with this regulation;

(2) The information required for site plan approval as set forth herein at § 173-133, as may be amended; and

(3) Information sufficient for the SPGA to make a decision on the compliance of any proposed towers and facilities with the requirements of §§ 173-128 through 173-133, inclusive.

§ 173-130. On-site demonstration.

The SPGA may require the applicant to perform an on-site demonstration of the visibility of the proposed tower by means of a crane with a mock antenna array raised to the maximum height of the proposed tower. A colored four feet minimum diameter weather balloon held in place at the proposed site and maximum height of the tower may be substituted for the crane if approved by the SPGA. This demonstration shall take place after the application for Special Permit has been made, but prior to the close of the public hearing on said Special Permit. The applicant shall take care to advertise the date of the demonstration in a newspaper widely circulated in the neighborhood of the proposed site. Failure, in the opinion of the SPGA, to adequately advertise this demonstration may be cause for the SPGA to require another, properly advertised demonstration.

173:92
§ 173-131.Special permit requirements.

A. The tower and its facilities shall be located in accordance with the Federal Communications Commission (FCC) and the Federal Aviation Administration (FAA) Regulations in effect at the time of construction. The operation of the Tower and its facilities shall comply with all requirements of these agencies during the entire period of operation.

B. The tower and its facilities shall be located within the Town of Littleton as follows:

1. To the extent feasible all service providers shall co-locate on a single tower. Towers and accessory buildings shall be designed to structurally accommodate the maximum number of users.

2. New Towers shall be considered only upon a finding by the Planning Board that existing or approved towers cannot accommodate the wireless communications equipment planned for the proposed tower.

3. If it is demonstrated to the satisfaction of the Planning Board that the siting of proposed facilities on municipal land, or within an existing church steeple is not feasible, then the towers and facilities shall be located on Industrial Land within 500 feet of a divided highway.

4. The base of all towers shall be no closer than 300 feet to a dwelling in a residential district. Facilities shall comply with existing setback requirements.

5. Tower height shall not exceed 100 feet measured from the base of the tower to the highest point of the tower or its projection.

6. Fencing shall be provided to control access to the base of the tower which fencing shall be compatible with the scenic character of the Town and shall not be of barbed wire or razor wire.

7. Access shall be provided to a tower site by a roadway which respects the natural terrain, does not appear as a scar on the landscape and is approved by the Planning Board and the Fire Chief to assure emergency access at all times. Consideration shall be given to design which minimizes erosion, construction on unstable soils and steep slopes.

8. The applicant shall demonstrate to the satisfaction of the Planning Board that the location of the tower is necessary and that the size and height is the minimum necessary for the purpose.

9. There shall be no signs, except for announcement signs, no trespassing signs and a required sign giving a phone number where the owner can be reached on a twenty-four-hour basis. All signs shall conform with the sign requirements of this bylaw.
§ 173-131  LITTLETON CODE  § 173-133

(10) To the extent feasible all network interconnections from the communications site shall be installed underground.

(11) The tower shall minimize, to the extent feasible, adverse visual effect on the environment. The Planning Board may impose reasonable conditions to ensure this result, including painting, lighting standards and screening.

(12) Removal of Abandoned Towers and Facilities. Any tower or facility that is not operated for a continuous period of 12 months shall be considered abandoned, and the owner of such tower and facility shall remove same within 90 days of receipt of notice from the governing authority notifying the owner of such abandonment.

If such tower or facility is not removed within said 90 days, the Town may cause such tower or facility to be removed at the owner's expense. If there are two or more users of a single tower, then this provision shall not become effective until all users cease using the tower.

A. An initial cash bond in a reasonable amount determined and approved by the Planning Board shall be in force to cover removal when discontinued or obsolete.

B. A maintenance bond shall be posted for the access road, site and tower(s) in amounts approved by the Planning Board.

§ 173-133. Site plan approval.

Site Plan approval by the Planning Board is required for the siting and construction of all wireless telecommunications towers, antennae, and facilities. If modification of a special permit is sought, the Planning Board may require approval of a new site plan.

A site plan submitted to the Planning Board for approval shall contain 10 copies of a plan conforming to the requirements of §§ 173-17 and 173-18 of this by-law and in addition, the following documentation:

A. Tower, antennae, and facility location (including guy wires, if any), and tower and antennae height.

B. Eight view lines in a one mile radius from the site, shown beginning at True North and continuing clock-wise at 45° intervals.

C. The locus map at a scale of 1:1000 which shall show all streets, bodies of water, landscape features, historic sites, habitats for endangered species within 200 feet and all buildings within 500 feet.

D. A copy of the requests made by the applicant to the Federal Aviation Administration (FAA), Federal Communications Commission (FCC), Massachusetts Aeronautics Commission and the Massachusetts
§ 173-133  ZONING  § 173-134

Department of Public Health to provide a written statement that the proposed tower complies with applicable regulations administered by the agency or that the tower is exempt from those regulations and a copy of the response from each agency. If such response is not received within 60 days, the application will be considered complete with respect to the requirements of this § 173-133D. The applicant shall submit any subsequently received agency statements to the Planning Board.

§ 173-134. through § 173-139. (Reserved)
§ 173-140. Purpose.

The purpose of the bylaw is to regulate the location of adult use establishments to prevent the associated secondary effects of these establishments, and to protect and promote the quality of the Town of Littleton's neighborhoods, commercial and business districts, and the general welfare, health and safety of the citizens of Littleton.

A. Special permit required. A Special Permit from the Planning Board and site plan review shall be required for any adult bookstore, adult live entertainment establishment, adult motion picture or mini motion-picture theater, or adult video store, or any other form of adult business as described in G.L. c.40A, § 9A. All of the standards in § 173-7 of this bylaw must be met.

B. Special permit applications. The application for a Special Permit for an adult use establishment shall comply with the rules for such applications adopted by the Planning Board and filed with the Town Clerk. In addition, the application for such Special Permit for an adult use establishment must include the following information:

1. Name and address of the legal owner of the establishment;
2. Name and address of all persons having lawful, equity, or security interests in the establishment;
3. Name and address of the manager;
4. Proof that any of the persons identified in Subsections B(1), B(2), and B(3) have not been convicted of violating G.L. c. 272, § 28 or G.L. c. 119, § 63;
5. The number of employees;
6. Proposed security precautions; and
7. The physical layout of the premises.

C. Location.

1. The property for the proposed use shall be located within 1,000 feet of a divided highway and within the Industrial A district, but may not be located within or within 1,000 feet of the nearest lot lines of any of the following:
   a. Other adult use establishment;
§ 173-141 LITTLETON CODE § 173-141

(b) Establishment licensed under the provisions of G.L. c.138, § 12;

(c) Residential district or residential use;

(d) Church or other religious facility or institution;

(e) Public or private school, day-care center, or nursery school;

(f) Nursing home, senior center, or elderly housing;

(g) Public playgrounds, parks, conservation areas.

(2) The proposed use and all associated advertising must be set back a minimum of 200 feet from all property lines.

D. Performance standards. No special permit may be granted for any adult use unless each of the following conditions are fully satisfied:

(1) A thirty-foot wide landscaped buffer along the side and rear property lines, consisting of evergreen shrubs at a minimum height of five feet, shall be required for all adult use establishments. The operator of said establishment shall replace any dead shrubs within six months.

(2) All building openings and entries shall be screened in such a manner as to prevent visual access of the public to the interior of the establishment. All windows shall be opaque.

(3) All parking areas for adult use establishments shall be in the side or rear yards and shall otherwise conform to the requirements of § 173-32.

(4) No adult entertainment establishment shall be allowed within a building containing other retail, consumer, or residential uses.

(5) No adult entertainment establishments shall be located within 50 feet of a public or private way and must be set back a minimum of 200 feet from all property lines.

(6) A material condition to every special permit issued with respect to any adult entertainment establishment shall be that such establishment must cease its business operations between the hours of 12:00 a.m. and 11:00 a.m. each day.

E. Adult use signs. No special permit may be granted for any adult use advertisement signs unless each of the following conditions are fully satisfied:

(1) All signs will be nonilluminated.

(2) Freestanding signs are not permitted.
§ 173-141 ZONING § 173-143

(3) An adult use advertisement sign may only be located on a building in which there is operating an adult use pursuant to a special permit issued by the Planning Board.

(4) The size of the on-premise sign is limited to 32 square feet.

(5) There shall be no temporary signs and no window signs.

(6) The sign complies with all other applicable provisions of the sign bylaw, § 173-34 to 173-41.

§ 173-142. Lapsing of special permit.

If substantial use or construction has not commenced without good cause within one year after the issuance of a special permit, the special permit shall lapse.

§ 173-143. through § 173-144. (Reserved)
ARTICLE XXIII
Senior Residential Development
[Added 11-8-2005 STM, Art. 4; amended 10-30-2017 STM, Art. 5]

§ 173-145. Purpose.

The purpose of this article is to provide for a variety of housing types, settings, and residential services to meet the needs of people as they age and people with disabilities.

§ 173-146. Applicability.

A. The Planning Board may grant a Special Permit for a Senior Residential Development in accordance with this Article XXIII on any tract of land meeting the following requirements:
   (1) Two or more acres of land;
   (2) Minimum of 100 feet of frontage on a public way; and
   (3) Public water available at the street frontage.

B. A Senior Residential Development is intended for people age 55 or over. As such, buildings and site improvements in a Senior Residential Development shall provide for visitability and universal design in accordance with the provisions of this article.

§ 173-147. Uses.

A. In the Residence, Village Common, or Business District, the Planning Board may grant a special permit for a Senior Residential Development that includes one or any combination of the following uses:
   (1) Cottage dwellings.
   (2) Two-family dwellings.
   (3) Townhouse dwellings.
   (4) Independent living units.
   (5) Assisted living residence, with or without memory care units.
   (6) Continuing care retirement community, which shall include an assisted living residence and one or more of the other uses listed above, and may include a skilled nursing facility or physical rehabilitation facility with not more than 100 beds.

B. In the Industrial District, the Planning Board may grant a special permit for a Senior Residential Development that includes one or any combination of the following uses:
   (1) Independent living units.
§ 173-147  LITTLETON CODE  § 173-148

(2) Assisted living residence, with or without memory care units.

(3) Skilled nursing facility or physical rehabilitation facility with not more than 100 beds.

C. An assisted living residence or continuing care retirement community may include the following nonresidential uses primarily for the benefit of residents and their guests, provided that aggregate floor area for the nonresidential uses shall not exceed 10% of the total gross floor area of the buildings in the development. These uses shall be incidental and subordinate to the principal residential uses in the Senior Residential Development.

(1) Retail, up to a maximum of 2,500 square feet.

(2) Personal services.

(3) Medical office or clinic.

(4) Community center or senior center.

D. A Senior Residential Development may also include the following uses:

(1) Adult day care center.

(2) Accessory uses for residents, employees, and guests, such as central or common dining facilities or laundry facilities, or indoor or outdoor recreation facilities.

(3) Conservation or agricultural uses.

§ 173-148. Basic requirements.

A. A Senior Residential Development shall comply with the following density regulations:

<table>
<thead>
<tr>
<th>Use</th>
<th>Maximum Density</th>
<th>Maximum Building Height (feet)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cottage dwellings or two-family dwellings</td>
<td>4 units/acre</td>
<td>32</td>
</tr>
<tr>
<td>Townhouse dwellings</td>
<td>8 units/acre</td>
<td>32</td>
</tr>
<tr>
<td>Independent living units</td>
<td>20 units/acre</td>
<td>55</td>
</tr>
<tr>
<td>Assisted living residence</td>
<td>16 units/acre</td>
<td>40</td>
</tr>
</tbody>
</table>

B. Maximum building coverage shall not exceed 35% of the lot area for new construction or expansion of existing structures.
§ 173-148  ZONING  § 173-149

C. For cottage dwellings, two-family dwellings, and townhouses, the minimum setback shall be 30 feet from all property lines in the Residence District, and 15 feet in the Village Common or Business District, unless the Planning Board determines that a reduced setback is necessary to achieve the purposes of this section and will not have a detrimental impact on the neighborhood. The minimum setback from all property lines for an assisted living residence, independent living units, or any buildings in a continuing care retirement community shall be 50 feet in all districts, except that the minimum setback shall be 100 feet from the side or rear lot line, as applicable, abutting an existing single-family dwelling. Nothing in this section shall preclude the Planning Board from reducing or waiving minimum setback requirements between buildings or internal lots created within the Senior Residential Development.

D. No dwelling unit in a Senior Residential Development shall have more than two bedrooms.

E. The minimum common open space in the development shall be 30% of the lot area, and not more than 25% of the required minimum common open space shall consist of wetlands. The upland open space shall be contiguous and usable by residents of the development. A permanent conservation restriction running to or enforceable by the Town shall be recorded for the common open space area and shall include restrictions that the land be retained in perpetuity for conservation or passive recreation.

F. Minimum off-street parking requirements shall be as follows:

1. Cottage dwellings, two-family dwellings, or townhouses: two spaces per unit.

2. Independent living units: one space per unit.

3. Assisted living residence: one space per two units.

4. Skilled nursing facility or physical rehabilitation center, if included in a continuing care retirement community: one space per two beds.

5. Guest parking: one space per three units or three beds, as applicable.

§ 173-149. Age-appropriate design.

A. A Senior Residential Development shall be designed to provide housing options in a setting that encourages and supports aging in community. While units do not have to be age restricted by deed to adults 55 years and over, they must be “vistitable” and designed for people as they age. At minimum, these terms mean that a Senior Residential Development shall have the following features:
§ 173-149  LITTLETON CODE  § 173-151

B. Single-family, two-family, and townhouse units shall provide for:
   (1) At least one zero-step entrance;
   (2) Doorways with a thirty-six-inch clear passage space;
   (3) Master bedroom and an accessible en suite bathroom located on the same floor as the kitchen, living room, and dining room, all being on the same floor as the zero-step entrance;
   (4) Master bedroom and en suite bathroom designed and equipped for seniors and people mobility impairments; and
   (5) Indoor or structured parking.

C. Independent living units and assisted living facilities shall comply with the accessibility requirements of the Massachusetts Architectural Access Board.

D. Outdoor facilities, such as walkways, gardens, and recreation areas, shall be designed for universal access.

As part of the Planning Board's special permit review process, the Board shall evaluate the proposed Senior Residential Development for conformance to the following minimum design standards.

A. Architectural planning and design shall incorporate energy efficient design techniques, such as natural heating and cooling systems, use of sun and wind energy generation systems, and so forth.

B. Structures located near the project property lines shall be designed and located in a manner that reflects consistency and compatibility with neighboring areas, and shall include appropriate use of building density, heights and design to minimize any intrusion on neighbors.

C. Outdoor recreation or gathering areas, particularly those that may generate significant noise and/or light and glare, shall be located to minimize intrusion on neighboring properties.

D. Structures shall be clustered to reduce site disturbance and protect open spaces, natural and environmentally sensitive areas.

E. Building design shall avoid use of long, unbroken facades, and shall include use of balconies, offset walls, trellises and other design elements to provide visual interest.

F. Building design, colors, and materials shall generally correspond to the natural setting of the project site, and to any prevalent design styles that may occur in neighborhoods within the general project area.

G. The development shall be served by public water.
A. The special permit application, public hearing, and decision procedures shall be in accordance with this article, the Planning Board’s Rules and Regulations, and § 173-7 of this Zoning Bylaw.
B. The Applicant shall submit a Senior Residential Development special permit application together with the size, form, number, and contents of the required plans and any supplemental information as required in the Planning Board’s Rules and Regulations.

§ 173-152. Decision.
A. The Planning Board may grant a Senior Residential Development special permit with any conditions, safeguards, and limitations it deems necessary to mitigate the project’s impact on the surrounding area and to ensure compliance with this article, only upon finding that:

(1) The proposed Senior Housing Development will not have adverse effects that outweigh its beneficial effects on either the neighborhood or the Town, in view of the characteristics of the site and of the proposal in relation to that site, considering each of the following:

(a) Social, economic, or community needs which are served by the proposal;
(b) Traffic flow and safety;
(c) Adequacy of utilities and other public services; and
(d) Qualities of the natural environment.

(2) The design of building form, building location, egress points, grading, and other elements of the project could not reasonably be altered to:

(a) Improve pedestrian, bicycle, or vehicular safety within the site and egressing from it;
(b) Reduce the visual intrusion of parking areas viewed from public ways or abutting premises;
(c) Reduce the volume of cut or fill, or reduce erosion;
(d) Reduce the number of removed trees six inches trunk diameter and larger; and
(e) Provide safer and more efficient access to each structure for fire and service equipment.

(3) The Senior Residential Development meets the purposes, requirements, and development standards of this Article XXIII; and
§ 173-152 LITTLETON CODE § 173-153

(4) The Senior Residential Development is consistent with the goals of the Littleton Master Plan.

§ 173-153. through § 173-164. (Reserved)
§ 173-165. Special permit.

A. The Littleton Planning Board is hereby designated the Special Permit Granting Authority (SPGA) to grant special permits for mixed use development under the provisions of this Article.

B. The SPGA may grant a special permit for mixed use development only upon finding that such use is in harmony with the general purpose and intent of the zoning bylaw and the proposal meets the specific provisions set forth under this bylaw. In granting the special permit, the SPGA may also specify conditions, safeguards and limitations concerning the use of the property associated therewith.

C. Site Plan Review, pursuant to Section 173-16, is required for all Mixed Use developments.

§ 173-166. Special provisions.

Mixed Use development projects shall be granted special permits only in conformity with the following:

A. Suitability of the site for Mixed Use development, including adequacy of the site in terms of the density of proposed uses.
   - Impact on the visual character of the business district and surrounding neighborhood.
   - Adequacy of pedestrian access to buildings, public spaces, and between adjacent uses.
   - Degree to which the proposed project complies with the goals of the Littleton Master Plan.

B. Mixed Use developments may include the following: studio, 1 and 2 bedroom units.

C. The mix of uses shall be balanced and compatible and shall contribute to a vibrant village atmosphere, including a combination of ground floor street front uses such as retail, restaurant and offices.

D. Ground floors of buildings fronting streets or public access ways shall be reserved for commercial uses except as specified below.

Dwelling units shall be allowed on ground floors of buildings as follows:

- The building is set behind another building that has commercial uses on the ground floor, or
- The residential portion of the ground floor of a building is set behind street-front retail/office/restaurant uses within the same building, or
The Planning Board determines that street-front residential uses will not have an adverse impact on the continuity of the commercial street front uses, and where such street-front residential uses will not be adversely affected by proximity to street and adjacent commercial uses.

E. Parking requirements. Entrances to dwelling units shall be visible and accessible from any parking areas located in the rear of a mixed-use building. All entrances are to have sufficient illumination at night time.

The Planning Board, consistent with Section 173-32 Parking Requirements, will consider the following parking requirements for Mixed Use Projects:

1.5 spaces per dwelling unit for 1 and 2 bedroom units
1 space per 200 square feet of retail.
ARTICLE XXV
Littleton Village Overlay District West-Beaver Brook Area
[Added 5-3-2010 STM, Art. 5; amended 5-7-2012 ATM, Art. 20]

§ 173-167. Purpose and intent.
A. The Littleton Village Overlay District West-Beaver Brook Area zoning bylaw is hereby established to promote:
   • A variety and balance of commercial uses and retail uses, coordinated through a master plan process
   • Economic development while remaining sensitive to environmental and surrounding residential area impacts
   • Building reuse and appropriate infill development
   • Innovative and sustainable building and site design
   • Integrated physical design and synergies between activities
   • Existing industrial uses, as well as site redevelopment to allow for updated types of industrial uses
   • Preservation and re-use of historic resources
   • A pedestrian-friendly environment

B. The Littleton Village Overlay District West-Beaver Brook Area includes the area shown on the map entitled "Littleton Village Overlay District West-Beaver Brook Area Zoning Map," dated March 19, 2010, as amended, on file with the Town Clerk and hereby made a part of this chapter. The benefits and obligations of the zoning bylaw shall accrue only to proposals for development on those parcels located entirely within the boundary of the Littleton Village Overlay District West-Beaver Brook Area, as shown on said map.

A. The Littleton Village Overlay District West-Beaver Brook Area bylaw shall not restrict, except as cited below, the rights of any owner who elects to utilize the existing underlying zoning district regulations to develop or redevelop land. If an owner elects to utilize the Littleton Village Overlay District — Beaver Brook Area bylaw to develop or redevelop land, the project shall conform to all applicable requirements of this bylaw, including any regulations or guidelines that may be adopted to support this bylaw.

B. In the event that an owner elects to utilize this bylaw to develop or redevelop land, then the underlying zoning in the Littleton zoning bylaw and the Littleton Village Overlay District West-Beaver Brook Area bylaw shall together constitute the zoning regulations for this Area. All requirements of the underlying zoning districts, such as but not limited to, lot size, frontage, density, setbacks, height, parking and loading, stormwater control and treatment, and signage, shall govern, unless
§ 173-168 LITTLETON CODE § 173-170

specifically modified by the Littleton Village Overlay District West - Beaver Brook Area bylaw.

C. If the provisions of this bylaw are in conflict with any other section of the Littleton zoning bylaw, the regulations of the Littleton Village Overlay District West — Beaver Brook Area shall govern.

D. For all purposes of this bylaw, the Planning Board is designated as the Special Permit Granting Authority (SPGA). All Special Permit applications made pursuant to this bylaw shall conform to the requirements of this bylaw and Section 173-7 of the Littleton zoning bylaw.

E. The Planning Board may adopt regulations for the implementation of this bylaw, including, but not limited to design guidelines that support the Littleton Village Overlay District West - Beaver Brook Area design standards.

§ 173-169. Master planned developments.

Pursuant to Section 173-89. To further the purposes of the Littleton Village Overlay District West-Beaver Brook Area, projects involving less than 25 acres, but more than three acres, may be approved by Master Planned Development special permit under Section 173-89 of the Littleton zoning bylaw. Such projects shall be subject to the additional requirements of this bylaw, and all other provisions of Section 173-89.

This type of special permit shall be known as the Master Planned Overlay Development Special Permit.

§ 173-170. Uses allowed as part of a master planned development.

Projects submitted as a Master Planned Development pursuant to this bylaw may include uses that are allowed by right in either the Industrial A or Industrial B zoning districts, and/or uses that may be authorized under Special Permit (as provided in Section 173-7) in either the Industrial A or Industrial B zoning districts. In addition, the following uses may be authorized by Master Planned Overlay Development Special Permit:

### § 173-171. Use exceptions.

A. Variances for uses, per Section 173-6B.(2) of the Littleton zoning bylaw shall not be permitted in any project submitted as a Master Planned Development.

B. The following uses, granted by Special Permit in the underlying Industrial Zones, shall not be allowed in any project submitted as a
§ 173-171  LITTLETON CODE  § 173-175

Master Planned Development: Adult Use Establishments and Mobile Homes. Motor Vehicle Service Stations and Vehicular Retail Sales shall not be allowed by Special Permit as part of a Master Planned Development pursuant to this bylaw. [Amended 11-4-2013 STM, Art.10]

§ 173-172. Concurrent review and granting of special permits.

At the proponent's option, applications for Special Permits for the Aquifer and Water Resource Districts (Section 173-61 thru 64) and Major Commercial or Industrial Use (Section 173-86 thru 88) if needed may be submitted and reviewed concurrently as part of the Master Planned Overlay Development approval process. Any additional Special Permits deemed to be required may also be submitted as part of the Master Planned Development approval process. If the Special Permit applications are not filed for concurrent review, they shall be filed once the Master Planned Development approval has been granted. The Planning Board encourages concurrent review of special permit applications.

§ 173-173. Concept plan approval.

Pursuant to Section 173-87, Town Meeting approval is required for retail use equal to or more than 60,000 square feet gross floor area as part of a Major Commercial or Industrial Use.

§ 173-174. Master planned development approval.

The Planning Board as SPGA may grant a Master Planned Overlay Development Special Permit if it finds the criteria for approval, as outlined in Sections 173-175- thru 173-179 (below), Sections 173-89, and 173-7C, and, if applicable, in Sections 173-62 and 173-88B have been met. The Special Permit may include approval of both a schematic development plan, including phasing, and the proposed mix of uses in the development. If the project proponent elects to utilize Concurrent Review of Special Permits (Section 173-172 above), the findings required pursuant to the applicable Sections of the Littleton zoning bylaw must be met.

The decision of the Planning Board for Master Planned Development projects may be approval, approval with conditions, or denial of the requested Special Permit(s).

§ 173-175. General performance standards and criteria.

The Planning Board shall consider the following general criteria before issuing a Special Permit for development within the Littleton Village Overlay District West - Beaver Brook Area:

A. Adequacy of the site in terms of the size of the proposed use(s).

B. Suitability of the site for the proposed uses(s).
§ 173-175 ZONING § 173-176

C. Adequacy of the provision of open space, its accessibility to the general public, and/or its association with adjacent or proximate open space areas.

D. Impact on traffic and pedestrian flow and safety and access for emergency vehicles.

E. Adequacy of pedestrian access to buildings and between public spaces.

F. Impact on the visual character of the Littleton Village Overlay District West - Beaver Brook Area and surrounding neighborhood.

G. Adequacy of utilities, including sewage disposal, water supply and storm water drainage.

H. Potential impacts on the Town’s aquifer.

I. Degree to which the proposed project complies with the goals of the latest Littleton Master Plan and the provisions of this section.

§ 173-176. Design standards.

In addition to the General Performance Standards and Criteria, the Planning Board shall consider the following Design Standards in reviewing any Master Planned Development application. The design standards are intended to promote quality development emphasizing the Town’s sense of history as a farming community and desire for contextual, pedestrian-scaled projects. To provide additional guidance, the Planning Board may promulgate more detailed Design Guidelines. All applications made pursuant to this bylaw shall be subject to the following Design Standards.

Building Scale and Massing

The size and detailing of buildings shall be pedestrian oriented and shall reflect community preference for moderate-scale structures that do not resemble "big box shopping centers". Building design shall incorporate features to add visual interest while reducing appearance of bulk or mass. Such features include varied facades, rooflines, roof heights, materials, and architectural details. The Planning Board may, as part of a Master Planned Overlay Development Special Permit approval, authorize an exception to the height limit upon a finding that the additional height is integral to the use and/or specific design of the structure(s).

Buildings shall relate to the pedestrian scale by:

Including appropriate architectural details to add visual interest along the ground floor of all facades that face streets, squares, pedestrian pathways, parking lots, or other significant pedestrian spaces.

Articulating the base, middle, and top of the facade separated by cornices, string cornices, step-backs or other articulating features.
Continuous lengths of flat, blank walls adjacent to streets, pedestrian pathways, or open spaces or visible from adjacent residential areas are to be minimized.

**Entrances**

For visibility and accessibility, all primary commercial building entrances shall be visible from the right-of-way and the sidewalk, and shall have an entrance directly accessible from the sidewalk.

Doors shall not extend beyond the exterior facade into pedestrian pathways. Where parking is located to the rear of a building, entrances to the building are to be visible and accessible from the parking lot. All entrances are to have sufficient illumination at night.

**External Materials and Appearance**

External building treatments shall relate to and be in harmony with surrounding structures. Predominant wall materials shall have the appearance of wood, stucco or stone painted or coated in a non-metallic finish.

Predominant wall materials shall have the appearance of wood, stucco or stone. If painted or coated, only a non-metallic finish shall be used.

Ground floor commercial building facades facing streets, squares, or other significant pedestrian spaces shall contain transparent windows encompassing a minimum of 40% of the facade surface.

Wherever possible, existing historic structures on the site shall be preserved and renovated for use as part of the development.

Any alteration of or addition to an existing historic structure shall employ materials, colors and textures as well as massing, size, scale and architectural features that are compatible with the original structure. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved. Awnings and canopies shall be compatible with the architectural style of the building.

**Screening of Mechanical Equipment**

Mechanical equipment located on roofs shall be screened, organized and designed as a component of the roofscape, and not appear to be a leftover or add-on element.

**Landscaping and Public Realm Enhancements**

A minimum of 10% of the site shall remain open space that is designed and intended for public use, such as landscaped sitting areas. This category of open space shall be usable, unobstructed space that is not used for vehicle parking, vehicle circulation, loading spaces or pedestrian pathways or landscaping within vehicle parking lots. This category of open space shall
§ 173-176   ZONING   § 173-176

not include streams, wetlands, ponds, rivers, certified vernal pools or other
resource areas, or their associated buffer zones as identified under MGL Ch.
131 or the regulations thereunder.

Developments shall enhance the pedestrian environment by use of amenities
such as wide sidewalks/pathways, outdoor seating, patios or courtyards,
and/or appropriate landscaping. All structures, parking, pathways and other
pedestrian amenities shall be designed to maximize ease of pedestrian access.

All developments shall be landscaped with appropriate low-water native
vegetation. Landscaping and screening plant materials within the Littleton
Village Overlay District West - Beaver Brook Area shall not encroach on the
public walkways or roadways in a way that impedes pedestrian or vehicular
traffic or blocks views of signs within the roadway alignment. Vehicle,
pedestrian, and bicycle features shall be designed to provide a network of
pathways and promote walking within the Littleton Village Overlay District
West - Beaver Brook Area.

Driveways shall not occupy more than 25% of the frontage of any parcel, except
for lots with a frontage of less than 40 feet. Curb cuts shall be minimized and
subject to design review by the Board. The Board may require allowance for
pedestrian and vehicular access to existing or future developments on abutting
properties in order to facilitate pedestrian access and to minimize curb cuts.

Service Areas, Utilities and Equipment

Service and loading areas and mechanical equipment and utilities shall be
unobtrusive or sufficiently screened so that they are not visible from streets
or primary public open spaces and shall incorporate effective techniques for
noise buffering from adjacent uses.

Vehicle and Bicycle Parking

Parking areas shall be designed to maintain a pedestrian-friendly
environment. Large parking areas shall be located behind or beside
buildings wherever possible. Generally, large parking areas parking shall
not be located directly between the building and the street alignment.

Bicycle parking shall be provided for all new developments, and shall be at
least 50% sheltered from the elements.

At least two bicycle parking or storage spaces shall be created for each
commercial use within the site.

Bicycle parking or storage spaces shall be located as close as possible to the
building entrance(s).

Any property owner required to have bicycle parking may elect to establish
a shared bicycle parking facility with any other property owner within the
same block to meet these requirements.
Sustainable Building Design

It is desirable that new buildings comply with the current Leadership in Energy and Environmental Design (LEED) criteria, as promulgated by the U.S. Green Building Council to the maximum extent feasible.

§ 173-177. Mix of uses.

The proposed mix of uses in the project shall be balanced and compatible and shall contribute to a vibrant village atmosphere, including ground floor street-front uses comprised of retail, restaurant and office uses. Within the Littleton Village Overlay District West - Beaver Brook Area, hotels, with accessory banquet, eating, and drinking uses, theaters, performance spaces, etc. are encouraged.

§ 173-178. Site plan review.

Site Plan Review, as applicable pursuant to Section 173-16 thru 19, is required for any project that has received a Master Planned Overlay Development Special Permit. A sufficiently detailed site plan, meeting all of the requirements in Section 173-16 thru 19, may, at the applicant's option, be submitted for review and approval at the same time as the Master Planned Development application.

A. Purpose. This purpose of this section is to balance environmental constraints in Littleton's Aquifer and Water Resource Districts with appropriate redevelopment of industrial sites. The entire Littleton Village Overlay District West - Beaver Brook Area is within either the Aquifer District or the Water Resource District. Total potential site coverage within the Aquifer District is limited to 30% by Special Permit, and within the Water Resource District, to 50% by Special Permit. The provisions of this section allow for redevelopment of sites that currently exceed the 30% site coverage in the Aquifer District and the 50% site coverage in the Water Resource District.

B. Site Coverage. Unless otherwise specified in the Littleton Village Overlay District West - Beaver Brook Area bylaw, the maximum impervious site cover shall be limited to 30% of the total lot area in the Aquifer District and 50% in the Water Resource District, pursuant to Section 173-61 thru 64 as amended of the Littleton zoning bylaw. For the purposes of the Littleton Village Overlay District West - Beaver Brook Area, site cover shall include all impervious surfaces such as parking and building coverage.

The Planning Board, by Special Permit, may allow for redevelopment that is equivalent to the same percent lot coverage as the existing impervious lot coverage, even if it exceeds the 30% and 50% thresholds, provided that both of the following criteria are met.
§ 173-179  ZONING  § 173-179

(2) There is no net increase in impervious site coverage.

All other provisions of the Aquifer and Water Resource Districts shall apply to all developments within this zone.
§ 173-180. Purpose.
The purpose of this section is to promote the creation of new commercial solar photovoltaic installations by providing standards for the placement, design, construction, operation, monitoring, modification and removal of such installations that address public safety and minimize impacts on residential neighborhoods and scenic, natural and historic resources.

Construction and use of a commercial solar photovoltaic installation or any part thereof shall be permitted in any zoning district subject to the requirements set forth in this section.

§ 173-182. Use regulations.
Commercial solar photovoltaic installations shall conform to the following provisions.

A. A commercial solar photovoltaic installation may be erected upon the issuance of a special permit by the Planning Board on a lot containing a minimum of three acres.

B. All setback, yard, buffer and screening requirements applicable in the zoning district in which the installation is located shall apply.

C. All security fences surrounding the installations shall be set back from the property line a distance equal to the setback requirement applicable to buildings within the zoning district in which the installation is located.

D. The provisions of Article IV, Site Plan Review, shall apply to commercial solar photovoltaic installations.

E. The visual impact of the commercial solar photovoltaic installation, including all accessory structures and appurtenances, shall be mitigated. All accessory structures and appurtenances shall be architecturally compatible with each other. Whenever reasonable, structures shall be shaded from view by vegetation and/or joined and clustered to avoid adverse visual impacts. Methods such as the use of landscaping, natural features and fencing may be utilized.

F. Lighting shall not be permitted unless required by the Planning Board or required by the State Building Code. Where used, lighting shall be directed downward and full cut-off fixtures shall be used.

G. All utility connections from the commercial solar photovoltaic installation shall be underground unless specifically permitted.
§ 173-182 LITTLETON CODE § 173-184

otherwise by the Planning Board in the special permit. Electrical transformers and inverters to enable utility interconnections may be above ground if required by LELD.

H. A commercial solar photovoltaic installation must meet: (i) the requirements of Littleton Electric Light Department's "Qualifying Facility Power Purchase Rate; and (ii) the requirements of Littleton Electric Light Department's "Standards for Interconnecting Distributed Generation" as published by the LELD.

I. Clearing of natural vegetation shall be limited to what is necessary for the construction, operation and maintenance of the commercial solar photovoltaic installation or otherwise prescribed by applicable laws, regulations and bylaws.

J. The commercial solar photovoltaic installation owner or operator shall maintain the facility in good condition. Maintenance shall include, but not be limited to, painting, structural repairs, continued compliance with landscaping and screening requirements, and integrity of security measures. The owner or operator shall be responsible for the maintenance of any access roads serving the installation.

§ 173-183. Discontinuance.

A commercial solar photovoltaic installation shall be deemed to have been discontinued if it has not been in service for a continuous twenty-four-month period. Upon receipt of a Notice of Discontinuance from the Building Commissioner, the owner shall have the right to respond to the Notice within 30 days of receipt. The Building Commissioner shall withdraw the Notice of Discontinuance and notify the owner that the Notice has been withdrawn if the owner provides information that demonstrates to the satisfaction of the Building Commissioner that the commercial solar photovoltaic installation has not been discontinued. If the commercial solar photovoltaic installation is determined to be discontinued, the owner shall remove the installation, including all structures, equipment, security barriers and transmission lines, and stabilize or re-vegetate the site as necessary to minimize erosion and sedimentation, at the owner's sole expense within three months of receipt of the Notice of Discontinuance. Failure to remove the installation and stabilize the site within said time period may subject the owner to action pursuant to Article XXIV.

§ 173-184. Administration.

A. A special permit is required from the Planning Board to erect or install a commercial solar photovoltaic installation. A record owner desiring to erect a commercial solar photovoltaic installation shall file with the Planning Board an application for a special permit, together with such plans, drawings, specifications, fees and additional information as required by the Planning Board.
§ 173-184 ZONING § 173-184

B. The Planning Board shall have the authority to waive specific provisions of this Article upon a determination that the waiver is not inconsistent with the purpose and intent of this section.

C. The Planning Board shall conduct its review, hold a public hearing and file its decision with the Town Clerk as required by MGL c.40A § 9.

D. Approval Criteria. Before the Planning Board may issue the special permit, it shall determine each of the following:

1. The commercial solar photovoltaic installation conforms to the provisions of this section.

2. The commercial solar photovoltaic installation will not be detrimental to the neighborhood or the Town.

3. Environmental features of the site and surrounding areas are protected, and the surrounding area will be protected from the proposed use by provision of adequate surface water drainage.

4. The proposed use is in harmony with the general purpose and intent of this Chapter.

E. Any special permit shall be subject to such conditions and safeguards as the Planning Board may prescribe. Such conditions may include the requirement of a performance bond, secured by deposit of money or negotiable securities, posted with the Town to guarantee proper maintenance and/or removal of the commercial solar photovoltaic installation. The amount of the performance bond shall not exceed the estimated cost of the commercial solar photovoltaic installation removal. Such conditions may also include additional screening of the facility.

F. In reviewing any application for a special permit, the Planning Board shall give due consideration to promoting the public health, safety, convenience and welfare; shall encourage the most appropriate use of land and shall permit no building or use that is injurious, noxious, offensive or detrimental to its neighborhood.
§ 173-185 ZONING § 173-188

ARTICLE XXVII

Registered Marijuana Dispensaries

[Added 5-5-2014 ATM, Art. 17]

A. To provide for the limited establishment of a Registered Marijuana Dispensary ("RMD") in a suitable location and under strict conditions.

B. To regulate the siting, design, placement, safety, monitoring, modification and removal of any RMD that may be located within the Town.

C. To minimize the adverse impacts of any RMD on the Town, nearby properties, residential neighborhoods, schools and other places where minors congregate, local historic districts, and other land uses incompatible with said facilities.

D. To limit the overall number of RMDs in the Town to the minimum required by applicable law.

§ 173-186. Applicability.

A. The commercial cultivation, production, processing, assembly, packaging, retail or wholesale sale trade, distribution or dispensing of Marijuana for Medical use is prohibited unless permitted as a RMD under this Article XXVII.

B. No RMD shall be established except in compliance with the provisions of this Article XXVII.

C. Nothing in this Article XXVII shall be construed to supersede federal and state laws governing the sale and distribution of narcotic drugs; nor shall any special permit issued pursuant to this Article XXVII supersede federal, state or local laws.

D. Where not expressly defined in the Section 173-2, all terms used herein shall be as defined in 105 CMR 725 et seq.

The Registered Marijuana Dispensary Overlay District is hereby established as an overlay district that shall include Assessors' Parcel R18-6-0 (500 Great Road) and those certain parcels within the Industrial A (IA) Zoning District as are shown on the map entitled "Registered Marijuana Dispensary Overlay District Zoning Map" dated March 17, 2014, on file with the Town Clerk and hereby made a part of this chapter. A RMD may be sited within the Registered Marijuana Dispensary Overlay District only, subject to the provisions of this Article.

§ 173-188. Administration and procedure.
A. A RMD may be allowed within the Registered Marijuana Dispensary Overlay District by special permit from the Planning Board (the “SPGA”) in accordance with M.G.L. c.40A, § 9, only subject to the procedures, regulations, requirements, conditions and limitations set forth herein. Only an applicant holding a valid Certificate of Registration from the Department of Public Health (DPH) is eligible to apply for a special permit pursuant to this Article.

B. Applicants for a special permit pursuant to this Article XXVII are strongly encouraged to meet with the SPGA at a public meeting to discuss the proposed application for a new RMD and to discuss in general terms of the proposed RMD prior to the formal submission of an application.

C. In addition to the standard Special Permit Application form, an applicant for a special permit under this Article shall also submit the following:

1. A copy of its Certificate of Registration from the Massachusetts Department of Public Health.
2. A copy of any waivers of regulations that the Department of Public Health has issued to the applicant.
3. Copies of all policies and procedures approved by the Department of Public Health, including without limitation the RMD’s operating procedures pursuant to 105 CMR 725.105(A).
4. The source or sources of all marijuana that will be sold or distributed at the proposed RMD, if applicable.
5. The quantity of marijuana that will be cultivated, processed, and/or packaged at the RMD, if applicable.
6. Names and addresses of each owner of the RMD and, where the owner is a business entity, the names and addresses of each owner of the business entity.
7. If applicable, a copy of the applicant’s Articles of Organization, a current Certificate of Legal Existence from the Commonwealth, and the most recent annual report.
8. Copies of all licenses and permits issued to the applicant by the Commonwealth of Massachusetts and any of its agencies.
9. Evidence that the applicant has site control and the right to use the proposed site as a RMD. Such evidence shall be in the form of a deed, purchase and sale agreement, lease, or other legally binding document.
10. In addition to what is otherwise required to be shown on a site plan pursuant to Article IV, the applicant shall provide details showing all exterior proposed security measures for the premises, including
but not limited to lighting, fencing, gates and alarms to ensure the safety of employees and patrons and to protect the premises from theft or other criminal activity. The site plan shall further delineate various areas of the RMD (indoors and outdoors) such as public access areas, employee only access areas, storage, cultivation, preparation, waste disposal, administrative, transportation, loading and parking areas. Site plans and/or application narrative shall contain sufficient information so that the SPGA can evaluate the design and operational standards contained in this Article XXVII.

D. Upon the filing of the special permit application with the SPGA, the applicant shall simultaneously deliver copies of the application to the Select Board, the Building Commissioner, the Board of Health, the Police Department and the Fire Department.

§ 173-189. Special permit requirements.

A. No RMD shall be located within 1,500 feet of any lot containing a school; licensed child care facility; public park, playground, athletic field or other public recreational land or facility; any use or facility where persons under the age of 18 commonly congregate to participate in scheduled or structured activities; religious facility; drug or alcohol rehabilitation facility; correctional facility, half-way house or similar facility; or any other RMD. For purposes of this section, distances shall be measured from the nearest property line containing one of the listed uses to the nearest point of the building in which the RMD is located.

B. The SPGA may reduce the minimum distance requirement in Section 173-189.A as part of the issuance of a Special Permit in the following instances only:

1. Renewal of a Special Permit for an existing RMD where the use described in Section 173-189.A has been established after issuance of the original Special Permit.

2. Change of permit holder for an existing RMD where the use described in Section 173-189.A has been established after issuance of the original Special Permit.

3. The applicant demonstrates to the satisfaction of the SPGA that application of Section 173-189.A will effectively prohibit the placement of a RMD within the Town.

C. A special permit for a RMD shall be limited to one or more of the following uses:

1. Cultivation of Marijuana for Medical Use;

2. Processing and packaging of Marijuana for Medical Use, including Marijuana that is in the form of smoking materials, food products, oils, aerosols, ointments, and other products;
§ 173-189  LITTLETON CODE  § 173-191

(3) Retail sale or distribution of Marijuana for Medical Use to Qualifying Patients.

Any use involving any one of these activities is considered a RMD.

D. Only one RMD shall be permitted within Town.

E. The RMD shall be designed such that all processing, cultivation and storage of marijuana shall be conducted indoors. No materials, plants, equipment, supplies or byproducts shall be visible from outside of the premises/building. With the exception of loading areas, no operations shall be visible by the public.

F. No smoking, burning, or consumption of any product containing Marijuana shall be permitted at the RMD.

G. All shipping and receiving areas shall serve the RMD exclusively. In the case of a multi-use or multi-tenant site, the RMD shall be laid out and designed to ensure separation from other uses or tenants at the site.

H. The RMD shall have adequate water supply, stormwater systems, sewage disposal, and surface and subsurface drainage.

I. Adequate lighting, including night lighting that provides for monitoring or building and site security.

J. The RMD shall post at a conspicuous location at the public entrance a sign that states "Registration card issued by the MA Department of Public Health required." The required text shall be a minimum of two inches in height. Signage shall otherwise be limited to that which is permitted under 105 CMR 725.100(L) and the Town’s sign bylaw.

K. The RMD shall provide and keep up to date contact information as required by the Chief of Police and Building Commissioner such as name, telephone number and electronic mail address of a contact person who must be available 24 hours a day, seven days a week.

L. No special permit shall be issued to a person who has been convicted of a felony or a violation of a state or federal statute prohibiting the unlawful possession, sale or distribution of narcotic drugs or prescription drugs. Further, no special permit shall be issued to any entity in which an owner, shareholder, member, officer, manager or employee has been convicted of a felony or violation of a state or federal statute prohibiting the unlawful possession, sale or distribution of narcotic drugs or prescription drugs.

§ 173-190. (Reserved)

§ 173-191. Special permit approval criteria.

The SPGA may issue a special permit for a RMD only if it finds that the project satisfies the requirements of § 173-7.C, this Article XXVII, and the following additional special permit criteria:

173:126
§ 173-191 ZONING § 173-192

A. In the case of retail sale or distribution, the proposed use would serve a demonstrated demand that is currently unmet within the area.

B. The RMD is fully permitted by all applicable agencies within the Commonwealth of Massachusetts and is in compliance with all State laws and regulations.

C. The proposed use is designed to minimize any adverse impacts on the residents of the Town.

D. The RMD contains a secure indoor waiting area for qualifying patients.

E. The storage and/or location of cultivation of Marijuana is adequately secured in enclosed, locked facilities within the RMD.

F. The RMD adequately addresses issues of vehicular and pedestrian traffic, circulation, parking and queuing, especially during peak periods at the facility, and adequately mitigates the impacts of vehicular and pedestrian traffic on neighboring uses.

§ 173-192. Special permit conditions.

A. The SPGA may impose reasonable conditions to improve site design, traffic flow, public safety, water quality, air quality, protection of significant environmental resources and the preservation of community character of the surrounding area including, without limitation, the following:

(1) Minimization of the impacts of increased noise and traffic.

(2) Imposition of security precautions related to the high value of products and case transactions.

(3) Deterring the presence of unauthorized or ineligible persons at, or near, the RMD. 

(4) Imposition of measures to prevent diversion of marijuana.

(5) Conditions related to the design and construction of the facility to improve safety, security and conformance with community character.

B. The SPGA shall include conditions concerning the following in any special permit granted pursuant to this Article:

(1) Hours of operation, including dispatch for any home delivery.

(2) The reporting of any incidents to the Building Commissioner and Planning Board as required pursuant to 105 CMR 725.110(f) within 24 hours of their occurrence. Such reports may be redacted as necessary to comply with any applicable state or federal laws or regulations.
(3) The reporting of any cease and desist order, quarantine order, suspension order, limiting sales order, notice of hearing or final action by the Department of Public Health or the Division of Administrative Law Appeals, as applicable, regarding the RMD to the Building Commissioner and the SPGA within 48 hours of the applicant's receipt.

C. The issuance of a special permit pursuant to this Article shall also be subject to the following:

(1) The special permit shall expire within five years of the date of issue. If the applicant wishes to renew the special permit, an application to renew must be submitted at least 120 days prior to the expiration of the special permit.

(2) Special permits shall be limited to the original applicant(s) and shall expire on the date the special permit holder ceases operation of the RMD.

(3) The holder of a special permit shall annually file an affidavit with the Building Commissioner demonstrating that it is in good standing with respect to its Certificate of Registration from the Department of Public Health and any other applicable State licenses.

(4) The holder of a special permit shall notify the Building Commissioner and the SPGA in writing within 48 hours of the cessation of operation of the RMD or the expiration or termination of the permit holder's Certificate of Registration from the Department of Public Health.

(5) Special permits shall lapse upon the expiration or termination of an applicant's Certificate of Registration from the Department of Public Health.

§ 173-193. (Reserved)
ARTICLE XXVIII
Adult Use Marijuana Establishments
[Added 10-30-2017 STM, Art. 13; amended 5-7-2018 ATM, Art. 20]

§ 173-194. Purpose.
A. To provide for Marijuana Establishments in suitable locations and under strict conditions.
B. To regulate the siting, design, placement, operation, safety, monitoring, modification and removal of any Marijuana Establishment that may be located within the Town.
C. To minimize the adverse impacts of any Marijuana Establishment on the Town, nearby properties, residential neighborhoods, schools and other places where minors congregate, local historic districts, and other land uses incompatible with said establishments.
D. To limit the overall number of Marijuana Retailers that may be located within the Town to an appropriate amount, which shall not exceed the minimum number of Marijuana Retailers that are required by M.G.L. c. 94G to be allowed within the Town absent a ballot vote.
E. To establish that on-premises consumption shall not be permitted unless the Town votes to authorize on-premises consumption pursuant to M.G.L. c. 94G, § 3.

A. The commercial cultivation, production, processing, manufacturing, packaging, testing, retail or wholesale trade, distribution, transporting, dispensing, researching and studying of Marijuana for Adult Use is prohibited unless permitted as a Marijuana Establishment under this Article XXVIII.
B. No Marijuana Establishment shall be established except in compliance with the provisions of this Article XXVIII.
C. Nothing in this Article XXVIII shall be construed to supersede federal and state laws governing the sale and distribution of narcotic drugs; nor shall any special permit issued pursuant to this Article XXVIII supersede federal, state or local laws.
D. Where not expressly defined in § 173-2, all terms used herein shall be as defined in MGL C. 94G and 935 CMR 500 et seq.

A. The Adult Use Marijuana Retail Overlay District is hereby established as an overlay district as shown on the map entitled "Adult Use Marijuana Establishment Overlay District-Retail" dated March 27, 2018, on file with the Town Clerk and hereby made a part of this
§ 173-196  LITTLETON CODE  § 173-198

chapter. A Marijuana Retail Establishment may be sited within this Overlay District only, subject to all of the provisions of this Article.

B. The following classes of Marijuana Establishments may be sited within the Industrial A and Industrial B Districts only, subject to all of the provisions of this Article:

(1) Marijuana Cultivator;
(2) Craft Marijuana Cooperative;
(3) Marijuana Product Manufacturer;
(4) Marijuana Research Facility;
(5) Marijuana Testing Laboratory;
(6) Marijuana Transporter; and
(7) Marijuana Micro-business.

§ 173-197. Limitations on Marijuana Retailers.

A. The number of Marijuana Retailers within the Town shall not exceed the minimum number that are required by M.G.L. c. 94G, § 3(a)(2)(ii), to be allowed within the Town absent a ballot vote.

B. All Marijuana Establishments are prohibited from delivering cannabis or marijuana products to consumers, and from offering cannabis or marijuana products for consumption on the premises of a Marijuana Establishment.

§ 173-198. Administration and procedure.

A. A Marijuana Establishment may be allowed in locations set forth in § 173-196 by special permit from the Planning Board (the "SPGA") in accordance with M.G.L. c. 40A, § 9, only subject to the procedures, regulations, requirements, conditions and limitations set forth herein. Only an applicant holding a valid license from the Cannabis Control Commission issued pursuant to M.G.L. c. 94G and 935 CMR 500 et seq., is eligible to apply for a special permit pursuant to this Article.

B. Applicants for a special permit pursuant to this Article XXVIII are strongly encouraged to meet with the SPGA at a public meeting to discuss the proposed application for a new Marijuana Establishment and to discuss in general terms of the proposed Marijuana Establishment prior to the formal submission of an application.

C. In addition to the standard Special Permit Application form, an applicant for a special permit under this Article shall also submit the following:

(1) A copy of the final, executed Host Community Agreement ("HCA") between the applicant and the Town of Littleton.

173:130
§ 173-198 ZONING § 173-198

(2) A written description of the status of its application to the Cannabis Control Commission relative to the establishment at issue, or a copy of such license, as applicable.

(3) A list of any waivers of regulations that the applicant seeks to obtain from the Cannabis Control Commission, or a copy of any such waivers that the Commission has issued to the applicant, as applicable.

(4) Copies of all policies and procedures approved by the Cannabis Control Commission including without limitation the Marijuana Establishment’s operating and safety procedures, or copies of such policies and procedures that the applicant intends to submit to the Commission, as applicable.

(5) For applications for a Marijuana Cultivator, a Craft Marijuana Cooperatives, or a Marijuana Micro-Business, information demonstrating that the applicant has considered the following factors in its design and its operating plan:

(a) Identification of potential energy use reduction opportunities (such as natural lighting and energy efficiency measures), and a plan for implementation of such opportunities;

(b) Consideration of opportunities for renewable energy generation, including, where applicable, submission of building plans showing where energy generators could be placed on the site, and an explanation of why the identified opportunities were not pursued, if applicable;

(c) Strategies to reduce electric demand (such as lighting schedules, active load management, and energy storage); and

(d) Engagement with energy efficiency programs offered pursuant to M.G.L. c. 25, § 21, or through the Littleton Light Department.

(6) The quantity and source or sources of all marijuana and marijuana products that will be sold at the proposed Marijuana Establishment, as applicable.

(7) The quantity of marijuana and marijuana products that will be cultivated, processed, manufactured, packaged, transported, tested, or studied at the Marijuana Establishment, as applicable.

(8) Written statement confirming that no marijuana or marijuana products will be smoked, burned, or consumed on the premises as part of the cultivation, manufacturing, testing or researching operations, as applicable, or a statement explaining how any such uses have been authorized by the Commission.
§ 173-198  LITTLETON CODE § 173-199

(9) Names and addresses of each owner of the Marijuana Establishment, and where the owner is a business entity, the names and address of each owner of that establishment.

(10) If applicable, a copy of the Applicant’s Articles of Organization, a current Certificate of Legal Existence from the Commonwealth, and the most recent annual report.

(11) Copies of all licenses and permits issued to the Applicant by the Commonwealth of Massachusetts and any of its agencies.

(12) Evidence that the applicant has site control and the right to use the proposed site as a Marijuana Establishment. Such evidence shall be in the form of a deed, purchase and sale agreement, lease, or other legally binding document.

(13) In addition to what is otherwise required to be shown on a site plan pursuant to Article IV, the applicant shall provide details showing all exterior proposed security measures for the premises, including but not limited to lighting, fencing, gates and alarms to ensure the safety of employees and patrons and to protect the premises from theft or other criminal activity. The site plan shall further delineate various areas of the Marijuana Establishment (indoors and outdoors) such as public access areas, employee only access areas, storage, cultivation, preparation, waste disposal, administrative, transportation, loading and parking areas. Site plans and/or application narrative shall contain sufficient information so that the SPGA can evaluate the design and operational standards contained in this Article XXVIII.

(14) Certification to the SPGA that the applicant has filed copies of the special permit application as required by § 173-198D.

D. Upon the filing of the special permit application with the SPGA, the Applicant shall simultaneously deliver copies of the full application to the Select Board, the Building Commissioner, the Board of Health, the Police Department and the Fire Department.

§ 173-199. Special permit requirements.

A. No Marijuana Establishment shall be located within 500 feet of any lot containing a school; licensed child care facility; public park, playground, athletic field or other public recreational land or facility; any use or facility where persons under the age of 18 commonly congregate to participate in scheduled or structured activities; religious facility; drug or alcohol rehabilitation facility; correctional facility, halfway house or similar facility; or any other non-collocated Marijuana Establishment or RMD. For purposes of this section, distances shall be measured in a straight line from the nearest point of the property line in question to the nearest point of the property line where the Marijuana Establishment is or will be located.

173:132
§ 173-199  ZONING  § 173-199

B. The SPGA may reduce the minimum distance requirement in § 173-199A as part of the issuance of a special permit in the following instances only:

(1) Issuance of a special permit for a Marijuana Establishment to an entity with an existing RMD in Littleton.

(2) Renewal of a special permit for an existing Marijuana Establishment where the use described in § 173-198A has been established after issuance of the original special permit.

(3) Change of permit holder for an existing Marijuana Establishment where the use described in § 173-198A has been established after issuance of the original special permit.

(4) Where the SPGA determines that reduction in the minimum distance is necessary for purposes of maintaining consistency with M.G.L. c. 94G, 935 CMR 500 and/or state guidance relative to local regulation and siting of adult use marijuana establishments.

C. Marijuana Establishment that seeks to expand or alter its operations so as to come within a new class or sub-class of Marijuana Establishment, as identified 935 CMR 500.050(d), shall obtain a new special permit prior to undertaking such expansion or alteration.

D. The SPGA shall not issue any special permit that would cause the Town to exceed the limits on Marijuana Retailers set forth in § 173-197.

E. An RMD licensed under 105 CMR 725 et seq., and that holds a special permit pursuant to Article XXVII shall obtain a new special permit prior to converting to a Marijuana Establishment or commencing any operations regulated by M.G.L. c. 94G and 935 CMR 500 et seq.

F. No smoking, burning, or consumption of any marijuana product shall be permitted at any Marijuana Establishment, except as may be authorized by 935 CMR 500 et seq for purposes of cultivation, testing, research, or manufacturing.

G. All shipping and receiving areas shall serve the Marijuana Establishment exclusively. In the case of a multi-use or multi-tenant site, the Marijuana Establishment shall be laid out and designed to ensure separation from other uses or tenants at the site.

H. The Marijuana Establishment shall have adequate water supply, stormwater systems, sewage disposal, and surface and subsurface drainage.

I. Adequate lighting, including night lighting that provides for monitoring or building and site security, including those measures to prevent diversion of marijuana and marijuana products cultivated outdoors.

J. A Marijuana Retailer shall post at a conspicuous location at the public entrance a sign that states "Only individuals 21 years of age or older,
unless in possession of a registration card issued by the MA Department of Public Health.” The required text shall be a minimum of two inches in height. Signage shall otherwise be limited to that which is permitted under 935 CMR 500 et seq. and the Town’s sign bylaw.

K. The Marijuana Establishment shall provide and keep up to date contact information as required by the Chief of Police and Building Commissioner such as name, telephone number and electronic mail address of a contact person who must be available 24 hours a day, seven days a week.

L. No special permit shall be issued unless the applicant has executed a Host Community Agreement with the Town in accordance with M.G.L. c. 94G, § 3.

M. No special permit shall be issued until the Applicant has held a community outreach hearing consistent with the Commission’s Guidance for License Applicants on Community Outreach and 935 CMR 500.101(1)(a)(9) or (2)(b)(7), unless the proposed use is exempt from the hearing requirement under the regulations.

§ 173-200. Special permit approval criteria.

The SPGA may issue a special permit for a Marijuana Establishment only if it finds that the project satisfies the requirements of § 173-7C, this Article XXVIII, and the following additional special permit criteria:

A. The Marijuana Establishment is fully permitted by all applicable agencies within the Commonwealth of Massachusetts and is in compliance with all State laws and regulations; provided, however, that issuance of a valid license pursuant to M.G.L. c. 94G may be a condition of the special permit.

B. The proposed use is designed to minimize any adverse impacts on the residents of the Town;

C. For a Marijuana Retail Establishment, there shall be a secure indoor area for all customers.

D. The Marijuana Establishment adequately addresses issues of vehicular and pedestrian traffic, circulation and parking, especially during peak periods at the facility, and adequately mitigates the impacts of vehicular and pedestrian traffic on neighboring uses.

§ 173-201. Special permit conditions.

A. In addition to compliance with M.G.L. c. 94G, and 935 CMR 500 et seq., the SPGA may impose reasonable conditions to improve site design, traffic flow, public safety, water quality, air quality, protection of significant environmental resources and the preservation of community character of the surrounding area including, without limitation, the following:
§ 173-201  ZONING  § 173-201

(1) Minimization of the impacts of increased noise and traffic.

(2) Imposition of security precautions related to the high value of products and case transactions.

(3) Deterring the presence of unauthorized or ineligible persons at, or near, the Marijuana Establishment.

(4) Imposition of measures to prevent diversion of marijuana and marijuana products.

(5) Conditions related to the design and construction of the facility to improve safety, security and conformance with community character.

(6) Conditions, consistent with the State Building Code, relating to energy efficiency and conservation.

B. The SPGA shall include conditions concerning the following in any special permit granted pursuant to this Article:

(1) Hours of operation, including dispatch for any home delivery.

(2) Compliance with the Host Community Agreement.

(3) The submission of a copy of the license from the Cannabis Control Commission with the SPGA and the Building Commissioner prior to the issuance of a building permit, certificate of occupancy, or commencement of use, whichever occurs first.

(4) The reporting of any incidents to the Building Commissioner as required pursuant to 935 CMR 500.110(7) within 24 hours of their occurrence. Such reports may be redacted as necessary to comply with any applicable state or federal laws or regulations.

(5) The reporting of any cease and desist order, quarantine order, suspension order, limiting sales order, notice of hearing or final action by the Cannabis Control Commission or the Division of Administrative Law Appeals, as applicable, regarding the Marijuana Establishment to the Building Commissioner within 48 hours of the applicant's receipt.

(6) Copies of all reports submitted to any state agency, including, but not limited to, the reports required by 935 CMR 500.105(10)(d) describing the establishment's liability insurance coverage and the annual security system audits required by 935 CMR 500.110(8) shall be submitted to the SPGA within five business days of submission to the State. Such reports may be redacted as necessary to comply with any applicable state or federal laws or regulations.

(7) Documentation to the SPGA that each Marijuana Establishment Agent has completed training regarding the proper handling of...
marijuana prior to performing job functions. Such documentation must be provided to the Board within five business days of the completion of such training. Annually, the establishment shall provide documentation to the SPGA and the Select Board that all Marijuana Establishment Agents have received at least eight hours of on-going training.

C. The issuance of a special permit pursuant to this Article shall also be subject to the following:

(1) The special permit shall expire within five years of the date of issue. If the applicant wishes to renew the special permit, an application to renew must be submitted at least 120 days prior to the expiration of the special permit.

(2) Special permits shall be limited to the original applicant(s) and shall expire on the date the special permit holder ceases operation of the Marijuana Establishment.

(3) The holder of a special permit shall annually file an affidavit with the Building Commissioner demonstrating that it is in good standing with respect to its license from the Cannabis Control Commission and any other applicable State licenses.

(4) The holder of a special permit shall notify the Building Commissioner and the SPGA in writing within 48 hours of the cessation of operation of the Marijuana Establishment or the expiration or termination of the permit holder's license from the Department of Public Health.

(5) Special permits shall lapse upon the expiration or termination of an applicant's license from the Cannabis Control Commission.

Use of property as a Marijuana Establishment shall necessarily be deemed a principal use for purposes of the Zoning Bylaw, and shall be permitted exclusively in accordance with this Article XXVIII. No Marijuana Establishment may be allowed within Town on the basis that such use qualifies as a permissible accessory use.
ARTICLE XXIX
Inclusionary Housing
[Added 10-30-2017 STM, Art. 6]

§ 173-203. Purposes.
The purposes of this bylaw are:
A. To increase the supply of housing that is available to and affordable for low- and moderate-income households;
B. To encourage greater diversity of housing in Littleton; and
C. To develop and maintain housing that is eligible for inclusion in the Chapter 40B Subsidized Housing Inventory.

§ 173-204. Applicability.
A. The requirements of this Article XXIX shall apply to:
   (1) Any residential development requiring a special permit from the Planning Board or any multifamily or mixed-use development resulting in a net increase of six or more dwelling units on any parcel or contiguous parcels comprising a proposed development site;
   (2) Any subdivision of land that would permit construction of six or more dwelling units in a conventional subdivision filed with the Planning Board under G.L. c. 41, §§ 81K to 81GG (Subdivision Control Law).
B. Development shall not be segmented to avoid compliance with this article. Segmentation shall mean one or more divisions of land that cumulatively result in a net increase of six or more lots or dwelling units above the number existing 36 months prior to an application to develop any parcel or set of contiguous parcels held in common ownership or under common control on or after the effective date of this Article XXIX.
C. Exemptions. This Article XXIX shall not apply to the following:
   (1) Independent living units or an assisted living residence in a Senior Residential Development.
   (2) Rehabilitation of a building or structure all of or substantially all of which is destroyed or damaged by fire or other casualty. However, any rehabilitation or repair that increases the density, bulk, or size of such building or structure above that which existed prior to the damage or destruction thereof shall comply with this article.
§ 173-205 Development requirements.

In any development subject to this Article XXIX, at least 10% of the dwelling units shall be affordable housing. Fractions shall be rounded up to the next whole number.

§ 173-206 Methods of providing affordable units.

Affordable units created under this Article XXIX shall be provided through one of the following means, or a combination thereof if approved by the Planning Board:

A. Construction of affordable units on the site of the project (“on-site affordable units”) is the preferred approach to creating affordable housing and shall be required for any development that includes 20 or more dwelling units.

B. The Planning Board may approve payment of a fee in lieu of affordable units to the Affordable Housing Trust, determined in accordance with § 173-208, for any development of with at least six but not more than 19 dwelling units.

§ 173-207 General provisions.

A. Affordable units shall be dispersed throughout the site and shall be indistinguishable on the exterior from market-rate units. The number of bedrooms in the affordable units shall be comparable to the number of bedrooms in the market-rate units unless the Planning Board grants a special permit to waive this requirement.

B. The selection of qualified purchasers or qualified renters shall be carried out under an affirmative fair housing marketing plan approved by the Department of Housing and Community Development (DHCD) prior to the sale or rental of any units in the development.

§ 173-208 Housing contribution payments in lieu of on-site units.

A. The fee in lieu shall be two times the HUD income limit for a household of four in the metropolitan area that includes Littleton. For example, if the HUD income limit for a household of four is $60,000, the fee in lieu for each affordable unit shall be $120,000.

B. The total amount due shall be paid upon the release of any lots or, in the case of a development other than a subdivision, upon the issuance of the first building permit unless the Planning Board grants a special permit to approve an alternative payment schedule.

§ 173-209 Planning Board regulations.

The Planning Board shall adopt and may periodically amend rules and regulations to administer this Article XXIX and file the same with the Town Clerk.
§ 173-210. Submission requirements and procedures.

A. A development involving a subdivision of land shall be submitted to the Planning Board in accordance with the Littleton Subdivision Regulations.

B. For a development that does not require a subdivision, or to request incentives or cost offsets under § 173-212, a special permit application shall be submitted to the Planning Board in accordance with § 173-7 and the Planning Board’s rules and regulations under this Article XXIX.

§ 173-211. Building permit and occupancy conditions.

A. The Building Inspector shall not issue a building permit for any unit in a development that is subject to this article unless and until the Planning Board or its designee has verified that all conditions of this Article XXIX have been met.

B. No certificate of occupancy shall be issued for any affordable unit in a development that is subject to this article until an affordable housing deed restriction has been executed and recorded with the Registry of Deeds or any required fees in lieu of units have been paid to the Affordable Housing Trust.

C. Timing of affordable unit production: Affordable housing units shall be provided in proportion to market-rate units in the development, but in no event shall the construction of affordable on-site units or payment of fees in lieu of units be delayed beyond the following schedule:

<table>
<thead>
<tr>
<th>Building Permits for Market-Rate Units %</th>
<th>Building Permits or Fees in Lieu for Affordable Housing Units %</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 30%</td>
<td>None required</td>
</tr>
<tr>
<td>30% to 50%</td>
<td>At least 10%</td>
</tr>
<tr>
<td>Over 50% to 75%</td>
<td>At least 40%</td>
</tr>
<tr>
<td>Over 75% to 89%</td>
<td>At least 70%</td>
</tr>
<tr>
<td>At 90%</td>
<td>100%</td>
</tr>
</tbody>
</table>

§ 173-212. Incentives and cost offsets.

The Planning Board may by special permit award a density bonus for a development that includes more than the minimum number of affordable units required under § 173-205 provided that all of affordable units will be located within the development. For each additional affordable unit over and above the minimum, the Board may approve three additional market-rate units, up to a maximum density bonus of 75%. Example: for a development of 12 housing units, compliance with this Article XXIX would require two affordable units. The applicant who agrees to provide two more affordable units on site (12 + 2 = 14) may request an additional six...
market-rate units (three per additional affordable unit), bringing the total development to 20 units.
