Special Permit Decision Filed with Town Clerk ____________________________

§ 173-61 Use Regulations

_____ YES Parcel in Aquifer District OR _____ NO Parcel in Water Resource District
PRINCIPAL USE:

A. In either Aquifer or Water Resource District:

[ ] Manufacture, use, transport, storage or disposal of toxic or hazardous materials as a principal activity NOT ALLOWED IN EITHER AQUIFER OR WATER RESOURCE DISTRICT

[ ] Vehicular retail sales as a principal use NOT ALLOWED IN EITHER AQUIFER OR WATER RESOURCE DISTRICT

[ ] Self-Storage Facility as a principal use

B. In Water Resource District ONLY (these principal uses are NOT ALLOWED in Aquifer District)

[ ] Truck terminal (4 or fewer trucks)

[ ] Sanitary landfill, junkyard, salvage yard, other solid waste disposal

[ ] Motor vehicle service or washing station

ACCESSORY USE OR ACTIVITY:

A. In either Aquifer or Water Resource Districts:

[ ] Manufacture, use, transport, storage or disposal of toxic or hazardous materials in excess of 5 gallons or 25 pounds dry weight of any substance or a total of all substances not to exceed 50 gallons or 250 pounds dry weight, on a site at any one time as an accessory activity for nonresidential and nonagricultural principal activities

[ ] Storage of ice-control chemicals, commercial fertilizers or animal manure not stored in accordance with DEP 310 CMR 22.21 (2)(b)(2), (b)(3) and (b)(4). NOT ALLOWED IN EITHER AQUIFER OR WATER RESOURCE DISTRICT

[ ] Parking area with 100 or more spaces capacity

[ ] Waste characteristics: Hazardous waste generation, treatment or storage in quantities not to exceed Very Small Quantity Generators (VSQGs) as defined in DEP 310 CMR 22.21(2)(a)(7) or subsequent equivalent regulation(s) currently in effect

[ ] On-site disposal of industrial waste

[ ] Grading resulting in exterior grades less than five feet above maximum groundwater elevation

[ ] Estimated sewage flow greater than 6 gallons/day per 1,000 s.f. of lot area

[ ] Estimated sewage flow greater than 15,000 gallons per day

[ ] Use retaining less than 30% of lot area in natural state
Town of Littleton
AQUIFER AND WATER RESOURCE DISTRICT CHECKLIST

B. In Water Resource District Only (these accessory uses are NOT ALLOWED in the Aquifer District)

__ NO __ Underground storage of gasoline or chemicals

__ NO __ Storage of heating oil or petroleum in quantities greater than 500 gallons

__ NO __ Disposal of snow from outside the district

__ NO __ Storage of sludge and/or septage not stored in accordance with DEP 310 CMR 22.21(2)(b)(1)

__ NO __ Waste generation in quantities greater than VSQGs limits

__ NO __ On-site disposal of industrial waste, as defined in DEP 310 CMR 22.21 (2)(a)(6).

IMPERVIOUS COVER:

__ NO __ Rendering impervious more than 20% but not less than 50% of any lot or parcel in Water Resource District

*YES* Rendering impervious more than 15% or 2500 square feet of any lot or parcel but less than 30% in Aquifer District *Reduced impervious surface from original permit

§ 173-62(B) Special Permit Criteria

N/A Groundwater quality performance rule met

N/A Location of water quality wells shown

§ 173-62(D) Special Permit Submittals

N/A Complete list of potentially toxic or hazardous materials used or stored

YES Description of protective and preventive measures (Household cleaning items to be stored in a cabinet)

**NO** Description of potentially toxic or hazardous wastes with storage and disposal method

N/A Evidence of DEP approval of waste system **Spill kit to be required on site

N/A Evidence of qualified professional supervision of underground storage system design and installation

YES Analysis by qualified engineer

§ 173-63: Design and Operation Guidelines*

__ NO __ Safeguards against materials discharge or loss adequate

YES Location of potential pollution source outside district where feasible

YES Waste disposal provisions adequate

YES Provision for on-site stormwater recharge or waived during site plan review*

NO Oil, grease, and sediment traps provided, if applicable*
N/A Separate collection of drainage from loading areas for toxic or hazardous materials*
N/A Monitoring adequate, if required
N/A Storage of ice control chemicals adequate

*Provision shall be made for on-site recharge of stormwater runoff from impervious surfaces without degradation to groundwater if a special permit is to be granted for greater than 15% coverage (but less than 30%) in the Aquifer District and for impervious cover greater than 20% (but less than 50%) in the Water Resource District. Such recharge shall include (but not limited to) infiltration through methods as outlined in the Town of Littleton Low Impact Design/Best Management Practices Manual (latest edition) unless otherwise approved by the Planning Board during site plan review. Where dry wells or leaching basins are used, they shall be preceded by oil, grease and sediment traps. Drainage from loading areas for toxic or hazardous materials shall be separately collected for safe disposal.”
